January 18, 2021

To the Honorable Mayor and Members of the City Council
To the Citizens of the City of Winchester
Winchester, Virginia

Ladies and Gentlemen:

The Comprehensive Annual Financial Report (CAFR) of the City of Winchester, Virginia for the fiscal year ended June 30, 2020 is submitted herewith pursuant to Sections 15.1-166 & 167 of the Code of Virginia. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the City. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of all the funds of the City. All disclosures necessary to enable the reader to gain an understanding of the City's financial activities are included.

The City's management is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the City are protected from loss, theft, or misuse; to ensure that adequate accounting data are compiled; and to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the evaluation of costs and benefits requires estimates and judgments by management.

State Statutes require an annual audit by independent certified public accountants. The accounting firm of Brown Edwards & Company, L.L.P. performed the City of Winchester's audit for the fiscal year ended June 30, 2020. In addition to complying with the requirements set forth in the State Statutes, the audit was designed to comply with the requirements of the Single Audit Act of 1984 and related Uniform Guidance. The auditor's report on the basic financial statements is included in the Financial Section of this report. The auditor's reports related specifically to the single audit are included in the Single Audit Section.

Generally accepted accounting principles require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City of Winchester's MD&A can be found immediately following the report of the independent auditors.

Profile of the City of Winchester

The City of Winchester is located in the northern tip of Virginia in the Shenandoah Valley. Winchester, founded in 1744, is the oldest city in Virginia west of the Blue Ridge Mountains. The City currently occupies a land area of 9.3 square miles and serves a resident population of approximately 28,705. Two major interstate highways, I-81 and I-66, and four major state highways, Routes 50, 7, 11, and 522, provide direct access to eastern markets, including Washington, D.C., 72 miles away, and Baltimore, MD, 97 miles away. As a regional employment and health care center, the City's daytime population increases to approximately 45,000.

The City of Winchester has a Council/Manager form of government. The nine-member Council consists of a Mayor and eight Councilors elected from four wards in the city with each ward electing two members from the territory of the ward, and the mayor elected at-large and serving for a period of four years. In the governance of the City, the Council is charged with the responsibility of establishing policies and enacting ordinances and resolutions. The Council elects one of the councilors to serve as President for a two-year term. The City Manager is appointed by the Council and is charged with the responsibility of administering daily operations and implementing Council directives.

The City provides a full range of services, including the following: police and fire protection; emergency response and rescue services; education; water and sewer services; refuse removal and disposal services; construction and maintenance of highways, streets and infrastructure; parks and recreational activities; cultural events; parking facilities; transit services; social services; planning and zoning; and general administration. All moneys required to support these services are reflected in this report.

The CAFR includes all funds, component unit agencies, and boards and commissions for which the City is financially accountable. Financial accountability is defined as appointment of a voting majority of such an entity's Board, and either (a) the ability to impose its will, or (b) the possibility that the component unit will provide a financial benefit to, or impose a financial burden on, the City.

Based on the foregoing criteria, the financial activities of the following organizations are included in the financial statements for the reasons indicated:

- ◆ Winchester Parking Authority (WPA): The Winchester Parking Authority was created at the request of the City of Winchester under Chapter 221 the 1964 Acts of the Virginia General Assembly on March 27, 1964 as a public body and body politic and corporate to acquire, construct, reconstruct, equip, improve, extend, enlarge, maintain, repair and operate off-street parking facilities; providing for the issuance of revenue bonds of the Parking Authority, payable solely from revenues; to pay all or any part of the cost of such parking facilities; providing for the imposition and collection of rates, rentals, fees, and charges for the use of and for the services furnished by the parking facilities; authorizing the issuance of revenue refunding bonds; and prescribing the powers and duties of the Authority in connection with the parking facilities and adjoining areas. All members of the WPA are appointed by the City's Common Council.
- ◆ Winchester School Board (Board): The Board was created by Common Council in accordance with Article VIII, Section 7 of the Virginia Constitution and Section 14.01(A) of the Winchester City Charter as a public body corporate. Pursuant to the foregoing, the Board is vested with the authority to supervise the City's publicly funded primary and secondary school system. The Board is authorized to oversee the operation and management of the City's public schools and receives annual appropriations in furtherance of these efforts from Common Council and other funding sources. In November 2019 the residents of Winchester voted via a referendum to transition from an appointed School Board to one that is elected. Four of the seats were elected in November 2020 and the remaining seats will be elected in November of 2022.

Profile of the City of Winchester (Continued)

Financial activities of the following joint ventures and other related organizations are not included in the CAFR, but are disclosed in the notes to the financial statements in accordance with pronouncements of the Governmental Accounting Standards Board:

- ◆ Frederick-Winchester Service Authority
- ◆ Winchester Regional Airport Authority
- ◆ Handley Regional Library Board

The City maintains budgetary control as part of its fiscal management techniques. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the City's governing body. The level of budgetary control (the level at which expenditures cannot legally exceed the appropriated amount) is established at the departmental level. Only the Common Council can revise the appropriation for each department. The City Manager is authorized to transfer appropriations within general government departments, and the School Board is authorized to transfer budgeted amounts within the school system's categories. As demonstrated by the statements and schedules included in the financial section of this report, the City meets its responsibility for sound financial management.

Local Economy

The City is the region's commercial, recreational, industrial, and medical center serving a 75-mile radius. Because of the City's position as a regional economic center and its extensive highway system, the City's workforce is drawn from a substantially broader area. Employers in the area offer a wide variety of private sector jobs ranging from agriculture, forestry, and manufacturing, to retail, professional, educational, and medical services, as well as an emerging presence of information technology opportunities.

The City's largest employer is Valley Health Systems, which owns and operates the Winchester Medical Center and five smaller primary care hospitals in the region along with other related services such as urgent care clinics, home health services, a childcare facility, and transport services. A level II trauma center and level III Neonatal Intensive Care Unit (NICU), the Winchester Medical Center is a non-profit, regional referral hospital, serving the tri-state region surrounding the city. The 455-bed facility, which has recently finalized a medical office building expansion and renovation to accommodate additional medical specialties, offers a full range of inpatient and outpatient diagnostic, medical, advanced surgical options and rehabilitative services.

Located within Winchester is Shenandoah University, a United Methodist Church-affiliated institution, which was founded in 1875 in Dayton, Virginia, and moved to Winchester in 1960. Today, Shenandoah University has an enrollment of over 4,000 students. These students participate in more than 100 programs of study at the undergraduate, graduate, doctorate and professional levels in seven schools: the College of Arts and Sciences, School of Business, School of Health Professions, Shenandoah Conservatory, School of Pharmacy, School of Nursing, and School of Education and Human Development. The University has continued to grow academic offerings and has recently become one of the first universities to offer bachelor's degrees in e-sports, in addition to renovating space on campus to create the regions first e-sports arena. Despite the impact of COVID-19 on higher education, Shenandoah University has seen their largest freshman enrollment class in their history in 2020 and have taken steps to expand their residential offerings.

Local Economy (Continued)

The Winchester Regional Airport is an all-weather general aviation airport, with 5,500 feet of grooved asphalt runway, serving the region. The airport is staffed 24 hours a day/7 days a week and sells 100LL and Jet-A aviation fuel. It is the official airport of the Virginia Inland Port Authority, which is fifteen miles south of Winchester. The City participates with other user localities in a joint venture to operate the airport and contributes a share of the local funding needed for the operations and capital improvements of the airport.

The City's commercial tax base accounts for 37.0% of the taxable real property value in the City. The City serves as the major retail center for the region. Apple Blossom Mall, an enclosed regional shopping center, contains Belk, J.C. Penney's and AMC Theatres as its anchors, along with over 80 stores, specialty merchants and restaurants, including a newly opened Men's Warehouse clothing store. Plazas such as Apple Blossom Corners, Winchester Crossing, Winchester Station and Winchester Plaza house Martin's, Staples, Hobby Lobby, Kohl's, HomeGoods, Books-A-Million, Michael's, Old Navy, Bed Bath and Beyond, Dick's Sporting Goods, Planet Fitness and a newly opened Kirklands. Also, serving the area are a Wal-Mart Supercenter, Lowe's, Home Depot, Target, T.J. Maxx, and Pier 1 Imports. The Old Town Mall, a pedestrian mall in the City's downtown, offers a wide range of boutiques, specialty shops and restaurants and is often viewed as the cultural center of the community. There are also several anchorless retail centers and one life style center that house Ann Taylor Loft, Talbots, J. Jill, Jos A Bank Clothier, and other high-end retail stores. The city is also home to several national chain restaurants. In addition, the city has several class A office buildings serving the professional services sector and business service entities. In addition to retail, hospitality and office space, the City is home to several large manufacturing companies including Continental AG, National Fruit Company, Rubbermaid Commercial Products, and Trex Corporation. These companies provide over 1,400 jobs to Winchester.

The City's Development Services Team and the Winchester Economic Development Authority (EDA) work closely together to facilitate economic development and growth within Winchester. In 2016, the EDA acquired the Winchester Towers property (a 35,000 square foot building and parking lot) at 200 North Cameron Street for the purpose of demolishing the structure and pursuing redevelopment. Currently, the EDA is working with Lynx Ventures LLC on the redevelopment of the property and neighboring properties into a mixed use project with 175 residential units, structured parking facility, and commercial space. The EDA has also acquired and demolished the structures on 6 lots at the corner of Kent and Piccadilly Streets and are working to finalize the selection of a developer to enter into a sales agreement with for redevelopment. In addition, the EDA continues to incentivize the redevelopment of several downtown properties and has collectively acquired over \$1,000,000 worth of property in the historic downtown. Also, through Enterprise Zone designation by the Virginia Department of Housing and Community Development, the EDA has created a valuable and comprehensive incentive package that facilitates the startup and expansion of Winchester businesses. Recently the Enterprise Zone was utilized to encourage and \$11 million expansion of Continental AG, adding 67 new manufacturing jobs; as well as the creation of an apple pressing facility investment valued at over \$1 million and creating 4 new jobs.

In addition, the City's Old Town Advancement Commission (OTAC) continues to successfully market the City's downtown. Despite the economic impacts felt due to the COVID pandemic, new businesses continue to locate downtown, while many existing businesses have continued to thrive due to adapting their business models. The OTAC administers the Main Street Program, focused on downtown revitalization - putting the traditional assets of downtown, such as unique architecture and locally owned businesses, to work as a catalyst for economic growth and community pride. The efforts of OTAC have earned recognition for excellence in the field of downtown revitalization by meeting high standards of performance set by the Virginia Main Street Program and the National Trust for Historic Preservations National Main Street Center. In the past year, Virginia Main Street recognized Winchester for passing the threshold of \$140,000,000 in private investment realized since 2010.

Long-term Financial Planning

Unassigned fund balance in the general fund (25.3% of General Fund expenditures) exceeds the policy guidelines set by Council for planning purposes. Twenty percent is the adopted minimum target for the City's General Fund balance. Amounts that exceed 25% are transferred to the capital reserve account up to the funding maximum of \$2.0 million, as currently established by City Council.

As part of our strategic plan, the City has implemented a 20-year financial planning model to help project revenue and expenditures through the year 2039. Factored into the financial planning model are anticipated future major capital projects. The City is planning for several road improvement projects that will leverage state revenue sharing funds and general obligation bonds. School projects include the complete renovation of the Douglas Community Learning Center facility to convert it to the Winchester Public School central office, scheduled to be completed in the summer/fall of 2022. Plus, the conversion of the former John Kerr Elementary School into the Shihadeh Innovation Center scheduled to be completed in the spring of 2021, an extension of the John Handley High School campus. These projects are to be funded through the issuance of a \$21 million general obligation bond, and over \$1 million in fundraising. Winchester Public Schools projects that enrollment will grow by approximately 100 students by 2023-2024 to an anticipated total enrollment of over 4,400. Current educational facilities are adequately sized at the elementary level for such growth, and the opening of the Shihadeh Innovation Center will alleviate any high school overcrowding, but middle school level assets will be slightly strained by student enrollment in grades 5-8. Despite the anticipated increase in middle school enrollment, these improvements should take us well into the future, allowing us to continue providing a quality education for all students in the City.

Relevant Financial Policies

In December 2003, along with the fund balance policy (updated in August 2016), City Council adopted a debt obligation policy, which states that net debt as a percentage of assessed value will not exceed 4%. General obligation debt service and capital lease payments as a percentage of general governmental expenditures will not exceed 15%.

The City's investment policy is designed to allow the City to obtain the highest possible yield on available City financial assets, consistent with constraints imposed by its safety objectives, cash flow considerations, and Virginia State laws that restrict the placement of public funds. Accordingly, deposits were either insured by Federal Depository Insurance or collateralized in accordance with the Virginia Security for Public Deposits Act.

Major Initiatives

A. Hope Drive Extension

A construction contract for \$8.4 million has been awarded and construction is expected to begin in December 2020 on this project that will extend Hope Drive from Wilson Boulevard eastward to Pleasant Valley Road. In addition, Papermill Road will be realigned, and Tevis Street will be modified and will end at a cul-de-sac west of the railroad tracks. The construction will take approximately 18 months to complete. One-half of the costs of this project will be paid for using VDOT Revenue Sharing funds.

B. Valley Avenue Drainage and Sidewalk Improvements

Construction bids have been received for this project and a construction contract is expected to be awarded soon. The project will correct the significant drainage problem near the intersection of Valley/Tevis and will also install sidewalks on both sides of the roadway where none currently exist. Construction on this \$8.9 million project is expected to begin early in 2021 and be completed within 18 months. One-half of the costs of the drainage and sidewalk improvements will also be paid for using VDOT Revenue Sharing funds.

Major Initiatives (Continued)

C. Sidewalk Improvements

During the past two years, the City has replaced approximately 9 miles of sidewalks that were in poor condition at a cost of approximately \$5.4 million. The City has also implemented an aggressive repair program of grinding down the concrete at uneven sidewalk sections, when possible, and placing asphalt over broken sections of sidewalk or in cases of uneven sidewalk sections when the concrete can't be ground down. While this is not intended to be a long-term solution, it will make the sidewalks passable and allow the City to have adequate time to continue to replace these sidewalks which is a high priority for Winchester residents and City Council.

D. Green Circle Trail

The City continues to work towards completing the Green Circle Trail. Construction on the section of the trail along Jubal Early between just west of Harvest Drive and just east of Valley Avenue has started and will be completed early in 2021. In addition, the City has been awarded \$3,092,000 in Smart Scale funds and an additional \$1 million in Revenue Sharing funds from VDOT to complete the final section of the trail along Jubal Early between Plaza Drive and Millwood Avenue and the design of this section of the trail will begin in 2021.

E. Wentworth Drive Improvements

The City is receiving \$450,000 in federal funds through VDOT to construct new sidewalks along Wentworth Drive as part of the Safe Routes to School program. The project also includes the installation of curb & gutter and water and sewer main replacements. Construction on this project has commenced and is expected to be completed by September 2021.

F. North Cameron Street Drainage Improvements

The first phase of the improvements necessary to alleviate flooding along N. Cameron Street north of Piccadilly Street was completed in 2020. There are expected to be two additional phases of work consisting of stormwater management ponds that are scheduled to be completed within the next five years.

G. Utility Infrastructure Improvements

Work has started on multiple utility projects that will be completed in the next few years and are being paid for by the Utility fund. These projects are necessary to replace old infrastructure and include the following:

1. Water and sewer main replacements
2. Replacement of all 3/4-inch and 1-inch water meters in the system
3. Sewer pump station replacements
4. Improvements at the water treatment plant
5. New maintenance facility at City Yards

Awards and Acknowledgment

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Winchester for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2018. This was the twenty-seventh consecutive year that the City of Winchester has achieved this prestigious award. The City has submitted its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2019 and is

Awards and Acknowledgment (Continued)

waiting on the award notification. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to GFOA to determine its eligibility for another certificate.

The preparation of this report was made possible by the dedicated and effective efforts of City and Schools Finance staff, and staff in other departments throughout the City who assisted in gathering the information for this report. Many hours of hard work are represented herein, and we extend our sincere appreciation to each member of our staff who contributed to the final report.

Finally, grateful appreciation is extended to the City Council for their leadership and support throughout the year.

Respectfully submitted,

Daniel C. Hoffman
City Manager

Mary M. Blowe
Deputy City Manager/CFO

Celeste R. Broadstreet
Financial Services Director

INDEPENDENT AUDITOR'S REPORT

To the Honorable Members of the City Council
City of Winchester, Virginia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Winchester, Virginia as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and *Specifications for Audits of Counties, Cities, and Towns* issued by the Auditor of Public Accounts of the Commonwealth of Virginia. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Winchester, Virginia, as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, other supplementary information and statistical section, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), and is also not a required part of the basic financial statements.

The other supplementary information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 18, 2021 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

City of Winchester, Virginia
Management's Discussion and Analysis
Fiscal Year Ended June 30, 2020

This section of the City of Winchester's (the City's) annual financial report presents an overall review of the City's financial activities for the fiscal year ended June 30, 2020. Please review all documentation in conjunction with the City's financial statements and the transmittal letter for an overall picture of the City's financial performance as a whole.

Financial Highlights

- The assets and deferred outflows of resources of the City of Winchester, on a government-wide basis excluding component unit, exceeded its liabilities and deferred inflows of resources at the close of fiscal year 2020 by \$109.3 million (net position).
- The City's total net position increased approximately \$2.2 million over the course of this year's operations. Net position of governmental activities decreased \$3.9 million, and net position of business-type activities increased \$6.1 million over the prior year.
- At the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$30.5 million, an increase of \$1.3 million in comparison with the prior year. Approximately 70.5% of this amount, \$21.5 million, is available for spending at the government's discretion (unassigned fund balance).
- As of the close of the current fiscal year, the City's general fund unassigned fund balance was \$21.5 million. This amount represents 25.3% of total general fund expenditures.
- The City's total debt decreased by \$0.5 million, or 0.3%. The City's general obligation bond debt increased by \$5.1 million and revenue bond debt decreased by \$4.2 million from the prior year.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components:

- Government-wide financial statements
- Fund financial statements
- Notes to financial statements

This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the City's finances in a manner similar to a private-sector business.

The statement of net position presents information on all of the City's assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in the statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Overview of the Financial Statements (Continued)

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenue (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include: general government; judicial administration; public safety; public works; health and welfare; community development; and recreation and cultural. The business-type activities of the City include water and sewer operations.

The government-wide financial statements include not only the City itself (known as the primary government), but also a legally separate school district and a legally separate parking authority for which the City is financially accountable. Financial information for these component units is reported separately from the financial information presented for the primary government itself.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the City's near-term financing decisions. Both the governmental fund balance sheet and the governmental statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains eight governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balance for the general fund and capital projects fund, which are considered major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The City adopts an annual appropriated budget for its governmental funds. A budgetary comparison statement has been provided for the governmental funds to demonstrate compliance with this budget.

Proprietary funds. The City maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses an enterprise fund to account for its water and sewer operations. Internal service funds are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses internal service funds to account for its employee benefits program, equipment maintenance operation, and other post-employment benefits. Because these three functions predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Overview of the Financial Statements (Continued)

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Water and Sewer fund (a major fund). Conversely, the internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of combining statements elsewhere in this report.

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The City has three fiduciary funds: the Special Welfare Fund, Northwestern Regional Jail Authority Construction Fund, and Northwestern Regional Juvenile Detention Center Fund. The accounting used for fiduciary funds is much like that used for proprietary funds.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 18 - 95 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City's progress in funding its obligations to provide pension and other post-employment benefits to its employees. Required supplementary information can be found on page 95 of this report.

The combining statements referred to earlier in connection with nonmajor governmental funds and internal service funds are presented immediately following the required supplementary information on pensions.

Government-wide Financial Analysis

As noted earlier, net position (assets in excess of liabilities) may serve over time as a useful indicator of a government's financial position. Table 1 shows that the primary government's assets exceeded liabilities by \$109.3 million at the close of fiscal year 2020.

The City's net position reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment); less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although, the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Governmental activities. As shown in Table 1, net position for governmental activities decreased from \$36.0 million at the end of FY 2019 to \$32.1 million (\$3.9 million decrease) at the end of FY 2020. This decrease is attributed mainly to the increase in long-term debt. The City issued new debt in FY 2020 of \$15.0 million thereby increasing the overall general obligation debt liability.

Government-wide Financial Analysis (Continued)

In FY 2015, the City began complying with the Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions*. This standard requires the City for the first time to report a net pension liability for the Defined Benefit Pension Plan that is offered to City employees. For detailed information on the Defined Benefit Pension Plan see Note 11, page 51. In addition, in FY 2018 the City began complying with GASB Statements No. 74 and 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. This standard requires the City for the first time to report a net Other Postemployment Benefits (OPEB) liability for its cost sharing defined benefit healthcare plan offered to eligible retirees and other OPEB plans offered employees through the Virginia Retirement System see Note 13, page 67. Because information to restate prior years is not readily available, the prior year comparative information included in this discussion and analysis has not been restated.

Government-wide Financial Analysis (Continued)

In addition, since the GASB 34 implementation the City reports its liability for the repayment of the debt associated with the construction of school facilities under the governmental activities category. The City, not the School Board, is obligated for the debt. The related capital assets are presented under the Component Unit – School Board. If the debt related to the construction of schools (\$58.2 million) were not presented in Table 2, the net position for the governmental activities would be \$90.3 million and the total net position for the primary government would be \$167.5 million.

Government-wide Financial Analysis (Continued)

As shown in Table 2, the City's revenues from governmental activities totaled \$107.2 million for FY 2020, an increase of \$4.7 million from FY 2019. Property taxes increased \$2.2 million from the prior year due to an increase in the real estate tax rate from \$0.91 cents to \$0.93 cents. In addition, personal property taxes continue to grow due to the strong local economy which contributed to the overall increase of the personal property base in the City. Operating grants and contributions increased \$2.7 million or 16.8 % from the prior year for numerous projects including a state Governor's Development Opportunity Fund grant, Early Intervention grant, Federal CARES grant to help mitigate and respond to COVID-19, highway maintenance, and Tourism activities. Capital grants and contributions increased \$1.4 million for public works projects including a new Fire Burn Building and road improvement projects.

Winchester's general revenues increased by \$0.6 million from the prior year including a \$1.4 million decrease in local taxes, including sales, hotel and meals taxes due to COVID-19. Property taxes increased by \$2.2 million increase; this continues the trend of steady growth in local revenues based on a strong local economy. Governmental activities expenditures increased by \$17.5 million from the prior year, largely due to the \$10.5 million education expense for school construction. Public safety increased by \$1.6 million for the one-time purchase of a Fire Ladder Truck and a construction of a new Fire Burn Building. Public works increased by \$0.6 million primarily due to road improvements.

As shown in Figure A, the City received 73.1% of its revenue from taxes. The major source of revenue for the City was property taxes (\$46.2 million or 43.1%), composed of real estate, personal property taxes, and machinery and tools taxes. The City's assessed value of taxable real property for the 2019 reassessment increased by approximately 3.4% from the prior reassessment year. The increase in property tax revenues is due to the reassessment of real property and the increase in the real property tax rate from \$0.91 per \$100 of assessed values to \$0.93 per \$100 of assessed values (effective January 1, 2019). The City revalues real property every two years. The increase in real property values is another strong indicator of the City's continuing growth. Other tax revenues (sales and other taxes) increased \$0.8 million from the prior year.

The City's expenses from governmental activities totaled \$112.5 million (Table 2) for the fiscal year ended June 30, 2020, an increase of \$17.5 million from the prior year. As shown in Figure B, education was the largest expense at \$40.9 million or 36.3% of total governmental expenses. Public safety was the second largest expense at \$25.2 million or 22.4% of total governmental expenses.

Government-wide Financial Analysis (Continued)

Figure A
Revenues by Source – Governmental Activities

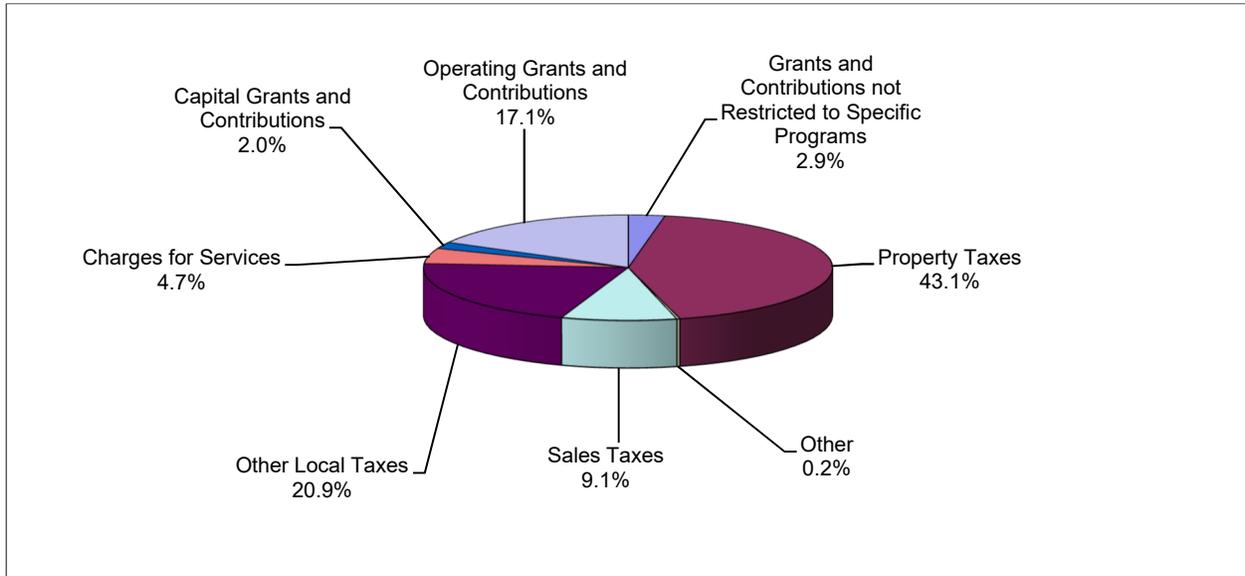

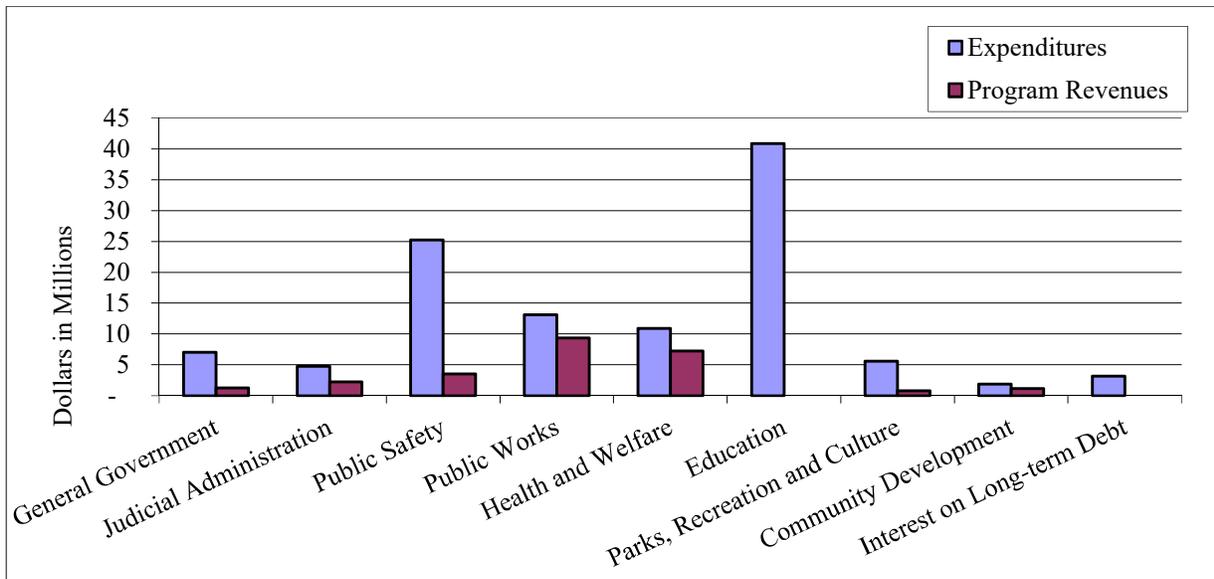

Figure B
Expenses and Program Revenues – Governmental Activities

Business-type activities. The City’s business-type activities include the water and sewer fund. The net position of these business-type activities totaled \$77.2 million (Table 2) an increase of \$6.1 million from the prior year. As shown in Figure C, the major revenue source for the business-type activities is charges for services, including water and sewer utility fees, which totaled \$31.1 million or 90.2% of the total revenues for business-type activities, which is comparable to the prior year. Expenses of the business-type activities totaled \$27.0 million (Table 2) a decrease from the prior year of \$0.7 million. This decrease in expenses is mainly due to the temporary cost saving measures implemented by the City in response to COVID-19, hiring freeze except critical positions, mandatory travel only, and delay in projects.

Government-wide Financial Analysis (Continued)

Figure C
Revenues by Source – Business-type Activities

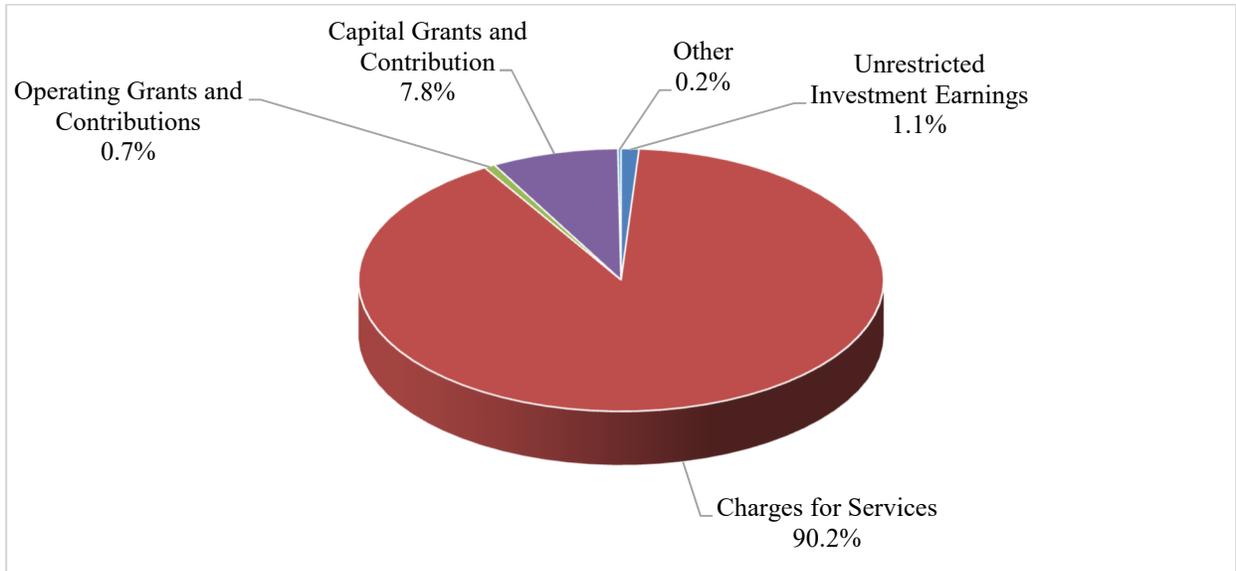

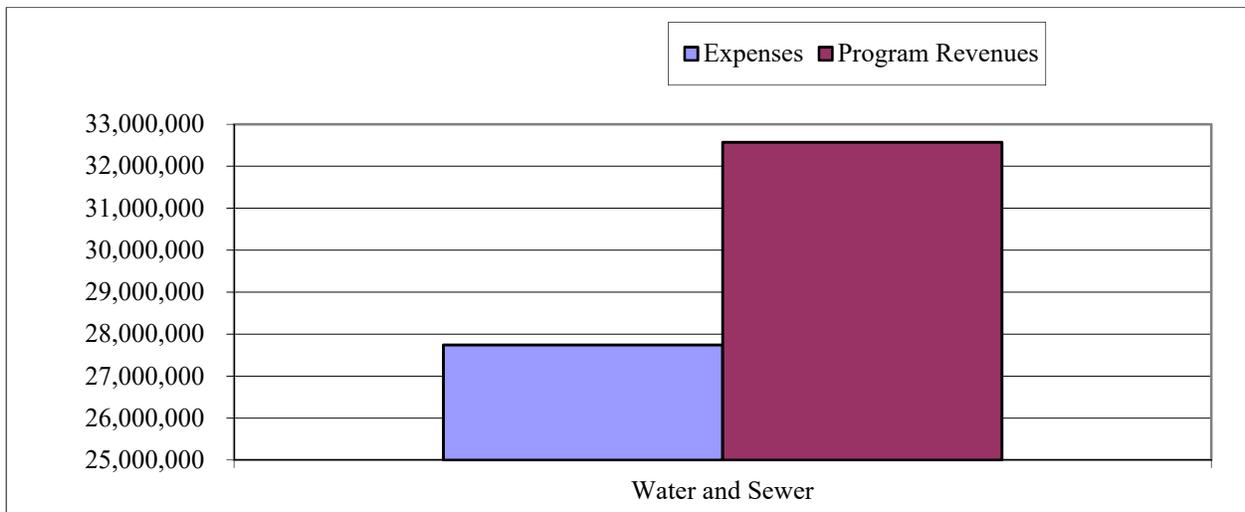

Figure D
Expenses and Program Revenues – Business-type Activities

School Board activities. The net position of the School Board totaled \$80.8 million (Table 1). School Board revenues (Table 2) increased by \$12.7 million (20.2%), largely due to the transfer to bond proceeds (\$10.5 million) from the City to the School Board for construction projects and a \$2.1 million increase (6.2%) in Operating grants and contributions for operations. Overall, School Board expenses increased \$2.8 million (4.5%), mainly due to salary increases for teachers to ensure the school system stays competitive with neighboring school systems.

Financial Analysis of the City's Funds

The City of Winchester uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the City's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

Fund balances are the difference between assets and liabilities in governmental funds and consist of the following categories:

- Nonspendable fund balance includes amounts that are not in spendable form, or amounts that are required to be maintained intact.
- Restricted fund balance includes amounts that can be spent only for the specific purposes stipulated by external providers, such as grantors or bondholders, as well as amounts that are restricted through enabling legislation.
- Committed fund balance includes amounts that can be used only for the specific purposes that are determined by a formal action of the government's highest level of decision making authority.
- Assigned fund balance applies to amounts that are intended for specific purposes as expressed by the governing body or authorized official and applies to remaining resources in any governmental funds other than the general fund.
- Unassigned fund balance includes all amounts not contained in other classifications for the general fund, and deficit fund balances in any other governmental funds.

For the fiscal year ended June 30, 2020, the City's governmental funds reported combined fund balances of \$30.5 million, an increase of \$1.3 million in comparison with the prior year. Approximately \$21.5 million of the combined total fund balances constitutes unassigned fund balance, which is generally available for spending at the City's discretion.

General Fund. The general fund is the chief operating fund of the City. For the fiscal year ended June 30, 2020, the unassigned fund balance of the general fund was \$21.5 million, while total fund balance reached \$26.2 million. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures and other financing uses. Unassigned fund balance represents 25.3% (25.9% in the prior year) of total general fund expenditures, the decrease is due to the planned use of fund balance for one-time capital projects in FY 2020. Total fund balance represents 30.9% (32.2% in the prior year) of general fund expenditures.

Total fund balance in the general fund decreased by \$0.8 million during the current fiscal year due to the planned use of fund balance for several capital improvement projects. Total revenues increased \$1.4 million or 1.6% over the prior year. Real property taxes increased \$1.0 million (3.4%), due to an increase in the real estate tax rate from \$0.91 cents to \$0.93 cents per \$100 of assessed value. Personal property taxes increased \$0.8 million (6.4%). Other local taxes trended slightly above projections during the first nine months of the fiscal year; however, the last quarter saw a significant decrease in other local taxes due to State mandated mitigation measures put in place to slow the spread of the COVID-19 virus. As a result, Other local taxes decreased by \$1.4 million (4.3%) from the prior year, including sales, meals and hotel taxes. Sales and use taxes decreased \$0.3 million (2.8%) and hotel and meals taxes decreased \$0.9

Financial Analysis of the City's Funds (Continued)

million (9.2%) while business license taxes increased \$0.2 million or 2.9% compared to the prior year. In addition, charges for services decreased \$0.3 million or 19.5% from the prior year on park and recreation activities because of the pandemic.

Capital Improvements Fund. The Capital Improvements Fund has a total fund balance of \$3.3 million, of which the entire amount is either restricted or committed for various projects. Revenue, including other financing sources, totaled \$22.7 million, of which \$1.9 million was intergovernmental revenue, \$2.4 million was transfer from the general fund and \$17.2 was loan proceeds. Intergovernmental revenue included \$1.4 million in funding from the state for road improvement projects, and \$0.3 million in federal funding for a road improvement projects. Expenditures totaled \$20.9 million, of which the most significant included \$10.5 million for school construction, purchase of a Fire Ladder truck, construction of a fire burn building, renovations of the Creamery building (expanded City office space), in addition to sidewalks and road improvement projects.

Proprietary funds. The City's proprietary fund statements provide the same type of information found in the government-wide financial statements, but in more detail. Unrestricted net position of the City's water and sewer fund for the fiscal year ended June 30, 2020, amounted to \$10.2 million, an increase of \$6.7 million from the prior year, mainly due to a decrease in bonds payable and other obligations of \$8.0 million.

General Fund Budgetary Highlights

City Council revised the City budget two times during the fiscal year. The difference between the original budget and the final amended budget of expenditures for the general fund was an increase of \$1.7 million, mainly due to the carryforward of City capital projects, and school excess funds for capital improvement from FY 2019.

Actual revenues were less than final budget amounts by \$0.5 million, and actual expenditures were \$4.4 million less than final budget amounts. Highlights of the comparison of final budget to actual figures include the following:

- Other local taxes were less than budget by \$1.0 million due to the unprecedented economic decline caused by COVID-19.
- Revenues from general property taxes were \$0.4 million more than budgeted amounts mainly due to an increase in the personal property taxes.
- Miscellaneous and recovered cost revenues were \$0.3 million more than budgeted amounts due to public safety cost recoveries for community assistance programs.
- Actual combined general government, judicial administration, public works, health and welfare, community development, and parks, recreation and cultural, expenditures were \$1.4 million less than budgeted amounts resulting primarily from savings in personnel costs due to managed position vacancies and the cost reduction strategies the City implemented due to COVID-19.
- Public Safety expenditures were \$1.0 million less than budgeted amounts resulting primarily from savings in personnel costs due to managed position vacancies and the cost reduction strategies the City implemented due to COVID-19
- Education expenditures were \$1.9 million less than budgeted amounts primarily from savings in personnel and operating costs by the Winchester Public Schools.

Capital Assets and Debt Administration

Capital assets. The City of Winchester's investment in capital assets for its governmental and business-type activities as of June 30, 2020, amounts to \$298.1 million net of depreciation, which represents an increase of \$23.0 million, or 8.3% over the prior year. This investment includes land, buildings, improvements, water and sewer distribution systems, roads and bridges, and machinery and equipment. More detailed information regarding the City's capital assets can be found in Note 7 to the financial statements.

Major capital asset events during the fiscal year included the following:

- Renovations to the Creamery Building for additional office space totaled \$2.8 million
- Sidewalk and curb improvements totaled \$1.4 million
- Purchase of a Fire Ladder Truck for \$1.0 million.
- Replacement of public safety and public works equipment totaled \$1.3 million.
- Replacement of water meters throughout the City totaled \$7.7 million.
- Replacement of water and sewer lines throughout the City totaled \$12.3 million

Table 3 summarizes the City's capital assets as of June 30, 2019 and 2020.

Long-term debt. As shown in Table 4, the City of Winchester had total debt outstanding of \$208.2 million for the fiscal year ended June 30, 2020, a decrease of \$0.5 million from the fiscal year ended June 30, 2019. This entire amount is backed by the full faith and credit of the City, with \$122.9 million of the total being repaid by the City's business-type activities.

For the fiscal year ended June 30, 2020, the City's outstanding general bond obligation increased by \$5.4 million, including the new issuance of \$15.0 million in general obligation bonds and the retirement of \$9.6 million general bond obligations due to the scheduled retirement of principal and bond refunding. The business-type activities obligations payable amount decreased by \$1.4 million and the revenue bonds payable amount decreased by \$4.2 million. The City's Water and Sewer Fund will be issuing new revenue bonds in FY 2021 in the amount of \$32.6 million to continue upgrades to the City's aging water and sewer system. Projects include water line replacements, sewer pump station replacements, upgrades

Capital Assets and Debt Administration (Continued)

to the Percy D. Miller Water Treatment plant, and a new Maintenance Facility. More detailed information regarding the City's long-term debt can be found in Note 9 to the financial statements.

Total Outstanding Debt	\$ 85,295,772	\$ 78,337,374	\$ 122,939,793	\$ 130,453,334	\$ 208,235,565	\$ 208,790,708

The City's General Obligation Bonds have been rated AAA by Standard & Poor's Corporation, Aa2 by Moody's Investors Service, and AA+ from Fitch Ratings. The legal debt margin of the City is 10% of the total assessed valuation of the real estate within the City, which is subject to local taxation. The limitation complies with Article VII, Section 10(a) of the Constitution of Virginia, 1971, and Section 15.1-176 of the Code of Virginia, 1950, which defines the limitation on outstanding indebtedness that may be incurred by cities. Based on 10% of the assessed value of real property, the City of Winchester's legal debt limit is \$330.9 million. As of June 30, 2020, the City of Winchester's total debt applicable to the limitation totaled \$91.1 million, leaving a legal debt margin of \$239.8 million.

Economic Factors and Next Year's Budgets and Rates

- The City took immediate steps to help mitigate the potential loss of revenue once a state of emergency was declared in March 2020 due to the COVID-19 virus. The City implemented the following strategies to mitigate the economic impact of COVID-19 on the City's finances: suspend all travel (unless required), essential purchases only, delay projects that are not already started, unless they impact the safety or security of our residents, and a hiring freeze (except for Public Safety positions), other positions will be considered on a case by case basis. We hope that the implementation of these cost saving strategies will help mitigate some of the City's anticipated loss of revenue. City staff will closely monitor our revenues and if revenues are not meeting the FY 2021 projections, we will prepare a mid-year (January timeframe) budget amendment to adjust revenues and expenditures. If decisions need to be made on our fund balance policies, or it appears that the City will drop below its policy goals, City staff will present to Council a plan to restore the fund balance, preferably within one fiscal year as per the City's fund balance policy.
- The City of Winchester uses a robust strategic planning process to identify and address significant community issues. The process involves both the City Council and staff working together to create and update the plan. The 2016 - 2028 strategic plan includes the City's Vision 2028, the City's work plan through 2020, and the City's mission statement. City Council developed the following four main goals during the planning process: encourage sustainable growth and partnerships through business and workforce development; promote and accelerate revitalization of target areas throughout the City; advance the quality of life for all Winchester residents by increasing cultural, recreational and tourism opportunities; enhance and maintain infrastructure; promote and improve public safety; and improve City services and advance the strategic plan goals by promoting a culture of transparency, efficiency and innovation. The City has embraced these goals and Council and staff work together to forward these goals.

Economic Factors and Next Year's Budgets and Rates (Continued)

- The City has adopted storm water regulations to comply with federal and state mandates related primarily to the Chesapeake Bay initiatives that are intended to improve water quality in the Bay. These regulations will become more stringent in the next 10 years and will require the City to undertake additional activities related to storm water management. One of these requirements is that the City must accurately map the storm water system. This effort is progressing and should be completed within the next two years. City staff is also planning for potential storm water infrastructure projects that may be necessary to meet the new regulations.
- Due to the need to continue to replace aging water and sewer infrastructure, the City completed a comprehensive analysis of the existing utility rates. Based on this analysis and the 5-year capital improvement plan to complete approximately \$50 million of capital improvements for the utility system, City Council adopted a series of water and sewer rate increases that began on July 1, 2018. Annual increases were to take effect on July 1 of each year until 2022; however, due to the unexpected economic hardship citizens are facing due to the COVID-19 virus the July 1, 2020 increase was delayed and pushed back until July 1, 2022. By 2023, it is anticipated that approximately \$5 million in cash revenue will be generated each year that will be dedicated to replacing old water and sewer infrastructure and will significantly lower the need to borrow funds for this purpose.
- The City of Winchester reassesses real property every two years; the next reassessment is effective January 1, 2021. The 2019 reassessment resulted in a 3.4% increase in taxable real property values. Based on current trends, the 2021 overall assessment values are projected to show modest growth over 2019 values.
- For the month of June 2020, the City's unemployment rate was 8.1%, compared to the State's 8.2% and the Federal rate of 11.2%. These numbers are reflective of the COVID-19 impact.
- The approved \$90.7 million FY 2021 General Fund budget is \$3.2 million less than the adopted FY 2020 budget. The City lowered revenue projections for local taxes and cut expenditures in anticipation of a shrinking local economy mainly in sales, meals and hotels taxes due to the COVID-19 virus. The FY 2021 budget includes \$0.3 million decrease in personnel, \$0.5 million decrease in equipment replacement, \$0.8 million decrease of general operating expenses, \$0.5 million decrease in the contribution to the Winchester Public Schools and \$2.0 million decrease in capital improvement projects.
- The FY 2021 budget includes the use of \$0.7 million of unassigned fund balance for one-time capital improvement projects for the Handley Library and Winchester Regional Airport projects. The FY 2021 budget also includes funding for a 6% increase in employee health insurance premiums (\$0.2 million).
- The FY 2021 budget does not include any tax or rate increases.
- The City is planning to issue \$14.6 million in new general obligation debt in FY 2021 for school projects (\$10.4 million) and infrastructure improvements (\$4.2 million).

Contacting the City's Financial Management

This financial report is designed to provide citizens, taxpayers, customers, investors, and creditors with a general overview of the City's finances and to demonstrate the City's accountability for the funds it receives. If you have questions about this report or need additional financial information, contact the Financial Services Director, City of Winchester, 15 N. Cameron Street, Winchester, VA 22601.

Amounts reported for governmental activities in the Statement of Net Position (Exhibit 1) are different because:				
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.				103,152,356
Other long-term assets are not available to pay for current-period expenditures and, therefore, are deferred in the funds.				5,443,642
Internal service funds are used by management to charge the costs of supplies, employee benefits, and risk management to individual funds. The assets, deferred outflows of resources, liabilities and deferred inflows of resources of the internal service funds are included in governmental activities in the Statement of Net Position.				991,178
Deferred refunding costs are not financial resources and, therefore, are not reported in the funds.				3,414,530
Financial statement elements related to pensions are applicable to future periods and, therefore, are not reported in the funds.				
Pension related deferred outflows				4,578,855
Pension related deferred inflows				(1,239,448)
Net pension liability				(10,153,211)
Financial statement elements related to other postemployment benefits are applicable to future periods and, therefore, are not reported in the funds.

**CITY OF WINCHESTER, VIRGINIA
RECONCILIATION OF THE STATEMENT OF REVENUES,
EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
For the Year Ended June 30, 2020**

Exhibit 5

Net change in fund balances - total governmental funds (Exhibit 4)	\$	1,302,299
Amounts reported for governmental activities in the Statement of Activities (Exhibit 2) are different because:		
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays, \$9,641,069, exceeded depreciation, \$5,786,079, in the current period.		3,854,990
Donations of capital assets increase net position in the statement of activities, but do not appear in the governmental funds because they are not financial resources.		221,450
In the Statement of Activities, only the <i>gain or loss</i> on the sale of capital assets is reported, whereas in the governmental funds, the entire proceeds from the sale increase financial resources. Thus, the change in net position differs from the change in fund balances by the <i>cost</i> of the property sold.		(115,176)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		948,094
Governmental funds report pension contributions as expenditures. However, in the Statement of Activities, the cost of pension benefits earned net of employee contributions is reported as pension expense.		
Employer pension contributions	\$ 1,959,811	
Pension expense	<u>(2,509,226)</u>	(549,415)
Governmental funds report other postemployment benefit contributions as expenditures. However, in the Statement of Activities, the cost of other postemployment benefits earned net of employee contributions is reported as other postemployment benefit expense.		
Employer other postemployment benefit contributions	270,947	
Other postemployment benefit expense	<u>(397,064)</u>	(126,117)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities.		
Principal repayments		8,041,602
Issuance of bonds		(17,176,851)
Amortization of issuance premium		1,070,049
Amortization of deferred charge on refunding		(747,378)
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.		
Compensated absences		189,122
Accrued interest		(305,843)
Internal service funds are used by management to charge the costs of supplies, employee benefits, and risk management to individual funds. The net revenue (expense) of internal service funds is allocated between governmental and business-type activities in the Statement of Activities.		
Net revenue (expense) of internal service funds		(534,455)
Allocation of net revenue (expense) to business-type activities		<u>65,492</u>
Change in net position of governmental activities	\$	<u>(3,862,137)</u>

The Notes to Financial Statements are an integral part of this Statement.

CITY OF WINCHESTER, VIRGINIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

Note 1. Summary of Significant Accounting Policies

Reporting Entity

The City of Winchester, Virginia (the “City”) was incorporated in 1752 and organized under the Council-Manager form of government. The City is governed by an elected mayor and an eight-member council. The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the government.

Discretely Presented Component Units:

The City of Winchester School Board was created as a separate legal entity by the City to oversee the operations and management of its publicly funded primary and secondary schools. All members of the School Board are appointed by City Council, and the City has the ability to impose its will upon the Board. In addition, because the School Board does not have taxing powers, the School Board is fiscally dependent upon the City to provide significant funding to operate the public schools. The School Board must also obtain the City’s approval for debt issuances.

The Winchester Parking Authority was created by the City for the purpose of planning and fostering the development of off-street parking facilities. The City appoints all members of the Authority and is able to impose its will on the Authority. The City is financially accountable for the Authority because the City approves the Authority’s budget, levies taxes (if necessary) and must approve any debt issuances.

Separate financial statements of these component units are not available.

Joint Ventures:

The Frederick-Winchester Service Authority was created by the City and County of Frederick to provide for administration, planning, and design of regional wastewater facilities for the participating jurisdictions. The City appoints a majority of the voting members of the Authority but has no equity interest in the venture. The Authority is able to meet its operating and other costs from charges for services. The City has certain long-term obligations with the Authority that are described further in Note 9. Separate financial statements for this joint venture may be obtained at the entity’s administrative offices at P.O. Box 43, Winchester, Virginia 22604.

The Winchester Regional Airport Authority was created by the City and the Counties of Frederick, Clarke, Warren, and Shenandoah to operate a regional airport facility. The City appoints less than a majority of Authority members and participating jurisdictions have no equity interest in the venture. The participants normally must subsidize operations and capital needs. During 2020, the City provided total support of \$61,825. Separate financial statements for this joint venture may be obtained at the entity’s administrative offices at 491 Airport Road, Winchester, Virginia 22602.

CITY OF WINCHESTER, VIRGINIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

Note 1. Summary of Significant Accounting Policies (Continued)

Reporting Entity (Continued)

Joint Ventures (Continued):

The Northwestern Juvenile Detention Center Commission was created by the City of Winchester and the Counties of Clarke, Frederick, Page, Shenandoah, and Warren to provide for the operation of a regional juvenile detention center for the use of the participating jurisdictions. The City serves as fiscal agent for the Commission and appoints a majority of the voting members of the Commission, but has no equity interest in the venture. The participants must subsidize operations and capital needs. During 2020, the City provided total support of \$432,623. Separate financial statements for this joint venture may be obtained at the entity's administrative offices at 145 Fort Collier Road, Winchester, Virginia 22603.

The Northwestern Regional Jail Authority was created by the City of Winchester and the Counties of Clarke, Frederick, and Fauquier to govern the operations of the Northwestern Regional Adult Detention Center. Each participating jurisdiction appoints three members to the Authority's board. The participants must subsidize operations and capital needs. During 2020, the City provided total support of \$4,790,840. Separate financial statements for this joint venture may be obtained at the entity's administrative offices at 141 Fort Collier Road, Winchester, Virginia 22603.

Other Related Organizations:

The Economic Development Authority of the City of Winchester was created by Council resolution to promote industry and trade within the City. A board of seven directors appointed by the City Council governs the Authority; however, the City's accountability does not extend beyond making the appointments. Separate financial statements for this related organization may be obtained at the entity's administrative offices at 15 North Cameron Street, Winchester, Virginia 22601.

The Handley Regional Library Board was created by the City and the Counties of Frederick and Clarke to operate a regional library. Although the City appoints a majority of the Board members, its accountability does not extend beyond making the appointments. The participating localities have no equity interest in the library; however, the City provided \$419,020 to the Board for operating support for 2020. Separate financial statements for this related organization may be obtained at the entity's administrative offices at 100 West Piccadilly Street, Winchester, VA 22601.

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component units. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, *the primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

(Continued)

CITY OF WINCHESTER, VIRGINIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

Note 1. Summary of Significant Accounting Policies (Continued)

Government-Wide and Fund Financial Statements (Continued)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements, with the exception of agency fund financial statements, which have no measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Accordingly, real and personal property taxes are recorded as revenues and receivables when billed, net of allowances for uncollectible amounts. Property taxes not collected within 45 days after year-end are reflected as unavailable revenues. Sales and utility taxes, which are collected by the state or utilities and subsequently remitted to the City, are recognized as revenues and receivables upon collection by the state or utility, which is generally in the month preceding receipt by the City.

CITY OF WINCHESTER, VIRGINIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

Note 1. Summary of Significant Accounting Policies (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Licenses, permits, fines, and rents are recorded as revenues when received. Intergovernmental revenues, consisting primarily of federal, state and other grants for the purpose of funding specific expenditures, are recognized when earned or at the time of the specific expenditure. Revenues from general-purpose grants are recognized in the period to which the grant applies. All other revenue items are considered to be measurable and available only when the government receives cash.

Governmental funds account for the expendable financial resources, other than those accounted for in proprietary and fiduciary funds. The governmental funds use the modified accrual basis of accounting where the measurement focus is upon determination of financial position and changes in financial position, rather than on net income determination as would apply to a commercial enterprise. The City reports the following governmental funds:

The *General Fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. The General Fund is considered a major fund for financial reporting purposes.

The *Capital Improvements Fund* accounts for financial resources to be used for the acquisition or construction of major capital facilities, other than those financed by proprietary funds. The Capital Improvements Fund is considered a major fund for financial reporting purposes.

Special Revenue Funds account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted to expenditures for specified purposes. Special revenue funds consist of the Social Services Fund, Highway Maintenance Fund, Emergency Medical Services Fund, Winchester-Frederick County Convention and Visitors Bureau Fund, Law Library Fund, and Transit Fund.

Proprietary funds account for operations that are financed in a manner similar to private business enterprises. The proprietary funds utilize the accrual basis of accounting where the measurement focus is upon determination of net income. Proprietary funds consist of enterprise and internal service funds. The government reports the following proprietary funds:

Enterprise Funds account for operations where the intent of the City is that the cost of provided services to the general public be financed and recovered through user charges. Enterprise funds consist of the Water and Sewer Fund, which accounts for the operation of the City's water distribution system and sewage collection system and is considered a major fund for financial reporting purposes.

Internal Service Funds account for employee benefits and equipment inventory provided to other departments or agencies of the government, or to other governments, on a cost reimbursement basis. Internal service funds consist of the Employee Benefits Fund and Equipment Operating Fund.

(Continued)

CITY OF WINCHESTER, VIRGINIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

Note 1. Summary of Significant Accounting Policies (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Fiduciary funds account for assets held by the government in a trustee capacity or as agent or custodian for individuals, private organizations, other governmental units, or other funds. These funds include the other postemployment benefits trust fund and agency funds. Fiduciary funds utilize the accrual basis of accounting as described in the proprietary funds presentation. Agency funds reported by the City include the Special Welfare Fund, Northwestern Regional Jail Authority Construction Fund, and the Northwestern Regional Juvenile Detention Center Fund. These funds account for assets held by the City for social services clients, regional jail construction, and a regional juvenile detention center.

As a general rule, the effect of inter-fund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the government's water and sewer function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the water and sewer fund, transit service fund, and internal service funds are charges to customers for sales and services. The water and sewer fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting the operating definition are reported as non-operating revenues and expenses.

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position/Fund Balance

Deposits and Investments

The government's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the government to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds, repurchase agreements, and the State Treasurer's Investment Pool.

Investments for the government, as well as for its component units, are reported at fair value. The State Treasurer's Investment Pool operates in accordance with appropriate state laws and regulations. The reported value of the pool approximates the fair value of the pool shares.

CITY OF WINCHESTER, VIRGINIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

Note 1. Summary of Significant Accounting Policies (Continued)

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position/Fund Balance (Continued)

Receivables and Payables

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either “due to/from other funds” (i.e., the current portion of inter-fund loans) or “advances to/from other funds” (i.e., the non-current portion of inter-fund loans). All other outstanding balances between funds are reported as “due to/from other funds.” Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as “internal balances.”

Property Taxes

Property is assessed at its value on January 1. Property taxes attach as an enforceable lien on property as of January 1. Taxes are payable in two installments on June 20 and December 5. The City bills and collects its own taxes. The City’s real estate and business-related personal property taxes are levied each calendar year on all taxable property located in the City, and are accounted for in the General fund. Therefore, real estate and business-related personal property taxes that are due within the current fiscal year and collected within 45 days subsequent to year-end are recorded as revenue.

Levy Date	January 1
Due Date	June 20/December 5

Property Taxes - Motor Vehicles

The City employs three prorated billing/assessment methodologies for personal property taxes on motor vehicles. Vehicles added to the tax roll prior to 1994 are assessed as of January 1 with taxes due in one installment on December 5. For vehicles added to the tax roll 1994 – 2018, property is assessed on a twelve-month cycle based on the date which a vehicle gains situs in the City, using its value as of the starting month and year of the vehicle’s twelve-month billing cycle and with taxes due in one installment thirty days after the cycle ends. Vehicles added to the tax roll 2019 - present (or by taxpayer option) follow a calendar year tax cycle with property assessed as of January 1 and semi-annual payment options due April 5 and October 5. The City bills and collects its own taxes, which attach as a lien on the property. These taxes are accounted for in the General Fund.

CITY OF WINCHESTER, VIRGINIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

Note 1. Summary of Significant Accounting Policies (Continued)

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position/Fund Balance (Continued)

Allowance for Uncollectible Accounts

The City calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. The allowance at June 30, 2020 consisted of the following:

General Fund (property taxes, penalties, and interest)	\$	1,540,464
Emergency Medical Service Fund		231,320
Water and Sewer Fund		684,617
	\$	2,456,401

Inventories and Prepaid Items

Inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories in the enterprise and internal service funds consist of expendable supplies held for consumption and are accounted for under the consumption method. The cost is recorded as an expense at the time the individual inventory items are used.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements using the consumption method.

Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. The City defines capital assets as assets with an initial, individual cost of more than \$10,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. No interest was capitalized during the current year.

Property, plant, and equipment, is depreciated using the straight line method over the following estimated useful lives:

	<u>Years</u>
Buildings	25-50
Improvements other than buildings	10-65
Infrastructure	10-65
Machinery and equipment	5-30

(Continued)

CITY OF WINCHESTER, VIRGINIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

Note 1. Summary of Significant Accounting Policies (Continued)

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position/Fund Balance (Continued)

Compensated Absences

City employees earn paid time off at a rate of 16 to 22 hours per month, depending on years of service. Sick leave is earned at the rate of 8 hours per month. Benefits or pay is received for unused sick leave upon termination at 25% of its carrying value to a maximum of \$5,000 per employee after five years of uninterrupted service or \$7,500 per employee after twenty years of uninterrupted service. Accumulated paid time off is paid out at a rate of 50% to 100% depending on the years of service with the maximum hours paid being 350 hours.

Employees of the School Board, who retire under the Virginia Retirement System, and have been employed by the School Board for the immediately preceding ten consecutive years prior to retirement in a full-time position receive \$50 a day for any unused sick leave up to a maximum of 90 days. All employees who are classified as full-time twelve-month employees are entitled to annual leave and shall be paid per diem upon retirement or termination (based on their final annual salary) for their unused annual leave.

All vacation and sick pay currently payable is accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Unearned Revenues

Unearned revenue represents amounts for which asset recognition criteria have been met but for which revenue recognition criteria have not been met. Unearned revenue consists of unspent federal awards.

Long-term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are recognized as an expense in the period incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face value of the debt issued plus premium is reported as other financing sources. Discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

School Board Debt/Capital Asset Reporting

The City issues debt to finance the construction of school facilities because the School Board does not have borrowing or taxing authority. The City reports this debt, whereas the School Board reports the related capital assets. As a result, in the Statement of Net Position (Exhibit 1), the school related debt reduces *unrestricted net position* for the primary government, while the capital assets are reported in *net investment in capital assets* for the School Board.

(Continued)

CITY OF WINCHESTER, VIRGINIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

Note 1. Summary of Significant Accounting Policies (Continued)

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position/Fund Balance (Continued)

Pensions and Other Postemployment Benefits (OPEB)

For purposes of measuring all financial statement elements related to pension and OPEB plans, information about the fiduciary net position of the City and Schools' Plans and the additions to/deductions from the City and Schools' Plan's net fiduciary position have been determined on the same basis as they were reported by the Virginia Retirement System (VRS). For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Deferred Outflows and Inflows of Resources

In addition to assets, the statement which presents financial position reports a separate section for deferred outflows of resources. These items represent a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense) until then.

In addition to liabilities, the statement which presents financial position reports a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time.

- Deferred charge on refunding. A deferred loss on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. Due to the relationship with outstanding debt, these deferred outflows are included in the calculation of net position, net investment in capital assets.
- Contributions subsequent to the measurement date for pensions and OPEB; these will be applied to the net pension or OPEB liability in the next fiscal year.
- Differences between projected and actual earnings on pension and OPEB plan investments. These differences will be recognized in pension or OPEB expense over the closed five year period and may be reported as a deferred outflow or inflow as appropriate.
- Changes in proportion and differences between employer contributions and the proportionate share of employer contributions, resulting from participation in cost-sharing pension and OPEB plans, are reported as deferred outflows or inflows as appropriate.
- Property taxes collected in advance of the period for which they were levied. These amounts are recognized as revenue in the period for which they were levied.
- Governmental funds report unavailable revenue from property taxes and other receivables not collected within the availability period. These amounts are recognized as an inflow of resources in the period they become available.

(Continued)

CITY OF WINCHESTER, VIRGINIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

Note 1. Summary of Significant Accounting Policies (Continued)

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position/Fund Balance (Continued)

Deferred Outflows and Inflows of Resources (Continued)

- Differences between expected and actual experience for economic/demographic factors and changes of assumptions in the measurement of the total pension or OPEB liability. This difference will be recognized in pension or OPEB expense over the expected average remaining service life of all employees provided with benefits in the plan and may be reported as a deferred inflow or outflow as appropriate.

Fund Balances

Fund balance is divided into five classifications based primarily on the extent to which the City is bound to observe constraints imposed upon the use of the resources in the governmental funds.

The classifications are as follows:

- **Nonspendable** – Amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of interfund loans.
- **Restricted** – Amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.
- **Committed** – Amounts can only be used for specific purposes pursuant to constraints imposed by formal action of the City Council through adoption of a resolution. Only City Council may modify or rescind the commitment.
- **Assigned** – Amounts are constrained by intent to be used for specific purposes but are neither restricted nor committed. Assignments are made by City management based on City Council direction through adoption or amendment of the budget or through ordinance or resolution.
- **Unassigned** – Amounts that are available for any purpose; positive amounts are reported only in the general fund.

The City applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

(Continued)

CITY OF WINCHESTER, VIRGINIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

Note 1. Summary of Significant Accounting Policies (Continued)

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position/Fund Balance (Continued)

Minimum Fund Balance Policy

The General Fund reserve target is 20% of the fund's prior year actual expenditures less capital outlays funded with bond proceeds. For the purpose of determining if the target has been met, the unassigned fund balance of the General Fund is compared with prior year actual expenditures.

Other governmental funds of the City do not have specified fund balance targets. Recommended levels of committed and/or assigned fund balance will be determined on a case by case basis, based on the needs of each fund and as recommended by officials and approved by Council.

Net Position

Net position is the difference between assets, deferred outflows of resources, liabilities and deferred inflows of resources. Net investment in capital assets represent capital assets, less accumulated depreciation less any outstanding debt related to the acquisition, construction or improvement of those assets.

Fair Value Measurement

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Note 2. Stewardship, Compliance, and Accountability

Budgetary Information

The following procedures are used by the City in establishing the budgetary data reflected in the financial statements:

1. Prior to March 30, the City Manager submits to Council a proposed operating and capital budget for the fiscal year commencing the following July 1. The operating and capital budget includes proposed expenditures and the means of financing them.

(Continued)

CITY OF WINCHESTER, VIRGINIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

Note 2. Stewardship, Compliance, and Accountability (Continued)

Budgetary Information (Continued)

2. Public hearings are conducted to obtain citizen comments.
3. Prior to June 30, the budget is legally enacted through passage of an Appropriations Resolution. Appropriated annual budgets are adopted for the General, Special Revenue, and Capital Improvements Funds of the primary government and School Board.
4. The Appropriations Resolution is adopted at the fund, function, and department level and places legal restrictions on expenditures at the department level. The appropriation for each department can be revised only by the Council. The City Manager is authorized to transfer budgeted amounts within general government departments; however, the School Board is authorized to transfer budgeted amounts within the school system's departmental categories.
5. Formal budgetary integration is employed as a management control device during the year for the general fund, special revenue funds and the capital improvements funds. The Discretely Presented Component Unit - School Board is integrated only at the level of legal adoption.
6. All budgets are adopted on a basis substantially consistent with generally accepted accounting principles (GAAP), with the exception of appropriations of prior fund balance, which are treated as revenue sources on the budgetary basis.
7. Appropriations lapse on June 30 for all City funds.
8. All budget data presented in the accompanying financial statements is the appropriated budget as of June 30, as amended. The City required budget amendments during the year, which increased total appropriations in the General Fund by \$4,936,167.

Note 3. Deposits and Investments

Deposits

Deposits with banks are covered by the Federal Deposit Insurance Corporation (FDIC) and collateralized in accordance with the Virginia Security for Public Deposits Act (the "Act") section 2.2-4400 et. seq. of the *Code of Virginia*. Under the Act, banks and savings institutions holding public deposits in excess of the amount insured by the FDIC must pledge collateral to the Commonwealth of Virginia Treasury Board. Financial Institutions may choose between two collateralization methodologies and depending upon that choice, will pledge collateral that ranges in the amounts from 50% to 130% of excess deposits. Accordingly, all deposits are considered fully collateralized. For the purposes of this disclosure, deposits include cash and cash equivalents as well as nonnegotiable certificates of deposit with original maturities of more than three months.

CITY OF WINCHESTER, VIRGINIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

Note 3. Deposits and Investments (Continued)

Investments (Continued)

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. Level 2 investments are valued using a matrix pricing technique, which is based on the investments' benchmark quoted prices.

Neither LGIP nor SNAP are registered with the SEC, but are overseen by the Treasurer of Virginia and the State Treasury Board. The value of the City's position in the pools is the same as the value of the pool shares and is stated at amortized cost in accordance with GASB Statement No. 79, which approximates fair value.

The City has no investment policy that would further limit its investment choices.

The City's investments are subject to credit risk, concentration of credit risk, and interest rate risk as described below. The City's investments are not subject to custodial risk or foreign currency risk.

Credit Risk - Statutes authorize the City to invest in obligations of the United States or agencies thereof, obligations of the Commonwealth of Virginia or political subdivisions thereof, obligations of the International Bank for Reconstruction and Development (World Bank), the Asian Development Bank, the African Development Bank, "prime quality" commercial paper and certain corporate notes, bankers acceptances, repurchase agreements, mutual funds, the State Treasurer's Local Government Investment Pool (LGIP), and the State Non-Arbitrage Program (SNAP).

Concentration of Credit Risk - The City held investments at June 30 issued by the United States Treasury totaling approximately 5.42% of all investments. These investments were not considered by management to represent a risk to the City.

Interest Rate Risk - The primary goal of the investment policy is to maximize return on investment while minimizing risk to the investment. The City will diversify use of investment instruments to avoid incurring unreasonable risks inherent in over investing in specific instruments, individual financial institutions or maturities. The City may reject an investment with a higher yield when it is felt it carries an element of risk. Speculative investments will not be allowed. If a specific maturity date is required, either for cash flows purposes or for conformance to maturity guidelines, bids will be requested for instruments, which meet the maturity requirement. If no specific maturity is required, a yield curve analysis will be conducted to determine which maturities would be most advantageous.

CITY OF WINCHESTER, VIRGINIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

Note 5. Promises to Give

Unconditional promises to give reported by the School Board for the Handley Capital Project, scholarships, and other educational programs at June 30 are as follows:

Receivable in less than one year	\$ 50,735
Receivable in one to five years	283,333
Receivable in five to ten years	<u>15,500</u>
Total unconditional promises to give	349,568
Less discounts to present value	<u>(44,181)</u>
Net unconditional promises to give	<u>\$ 305,387</u>

The discount rate used on long-term promises to give is 5%. Amounts above are net of uncollectable amounts.

Note 6. Interfund Receivables, Payables, and Transfers

Inter-fund balances at June 30, consisted of the following:

Primary Government

Due to general fund from:

Non-major governmental funds	\$ 560,000
Capital improvements fund	<u>402,357</u>
	<u>\$ 962,357</u>

Component Unit – School Board

Due to school operating fund from:

Federal grants fund	\$ <u>2,251,686</u>
---------------------	---------------------

Due to school capital improvement fund from:

Construction fund	\$ <u><u>2,000</u></u>
-------------------	------------------------

Interfund receivables and payables are generally used by the City and School Board to cover temporary cash deficits in individual funds until grant or similar resources are received.

Inter-fund transfers for the year ended June 30, consisted of the following:

Primary Government

Transfers to general fund from:

Water and sewer fund	\$ <u>1,400,000</u>
----------------------	---------------------

Transfers to capital improvements fund from:

General fund	\$ <u><u>2,438,900</u></u>
--------------	----------------------------

Transfers to non-major governmental funds from:

General fund	\$ <u><u>4,428,620</u></u>
--------------	----------------------------

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, (2) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations, including amounts provided as subsidies or matching funds for various grant programs, (3) close the residual balances of certain funds into other funds.

CITY OF WINCHESTER, VIRGINIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

Note 7. Capital Assets (Continued)

Primary Government (Continued)

Frederick-Winchester Service Authority (FWSA) treatment plant rights:

The City and the FWSA have entered into agreements for the City to benefit from a certain wastewater treatment plant of the FWSA. The City is not authorized to hold legal title to the plant; thus FWSA holds title to these assets. Through long-term contracts, the risks and benefits of operating and maintaining the assets have been transferred to the City, and thus represent intangible capital assets. The City is responsible for a portion of the debt incurred for these facilities.

Construction Commitments:

The City and School Board have active construction projects related to various items. At year end, the City's and School Board's commitments with contractors on the projects are as follows:

	<u>Total Contracts</u>	<u>Total Payments</u>	<u>Future Amounts to be Expended</u>

Primary Government

Changes in Long-Term Debt

The following is a summary of changes in the long-term liabilities of the City for the year ended June 30:

	<u>Beginning Balance</u>	<u>Increases</u>	<u>Decreases</u>	<u>Ending Balance</u>	<u>Due within One Year</u>
Governmental Activities:					
General obligation bonds	\$ 77,437,374	\$15,000,000	\$ (7,741,602)	\$ 84,695,772	\$ 8,273,671
HUD obligation	900,000	-	(300,000)	600,000	100,000
Unamortized bond premium	7,664,581	2,176,851	(1,070,049)	8,771,383	1,053,209
Compensated absences	2,712,804	909,922	(1,101,730)	2,520,996	1,103,589
Governmental activities long-term liabilities	<u>\$ 88,714,759</u>	<u>\$18,086,773</u>	<u>\$(10,213,381)</u>	<u>\$ 96,588,151</u>	<u>\$ 10,530,469</u>
Business-type Activities:					
General obligation bonds	\$ 8,352,626	\$ -	\$ (1,883,398)	\$ 6,469,228	\$ 1,371,329
Revenue bonds	86,741,865	6,555,000	(10,793,511)	82,503,354	4,489,687
Obligations payable FWSA	35,358,843	-	(1,391,632)	33,967,211	1,610,053
Unamortized bond premium	8,133,348	1,428,976	(1,098,324)	8,464,000	797,460
Compensated absences	213,039	108,102	(86,520)	234,621	102,707
Business-type activities long-term liabilities	<u>\$ 138,799,721</u>	<u>\$ 8,092,078</u>	<u>\$(15,253,385)</u>	<u>\$ 131,638,414</u>	<u>\$ 8,371,236</u>

Internal service funds predominantly serve the governmental funds. Accordingly, long-term liabilities for them are included as part of the above totals for governmental activities. At June 30, \$20,687 of internal service funds compensated absences is included in the above amounts. Also, for the governmental activities, compensated absences are generally liquidated by the general fund and special revenue funds.

During the fiscal year, the City obtained a \$10,000,000 tax anticipation note with Truist Bank. The City did not draw on the note and the balance due as of June 30, 2020 was \$-0-. The City paid approximately \$12,500 in unused fees.

CITY OF WINCHESTER, VIRGINIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

Note 9. Long-Term Debt (Continued)

Primary Government (Continued)

Frederick-Winchester Service Authority (FWSA) treatment plant rights

During 2008 and 2009, the FWSA in conjunction with the participating entities decided to expand the Opequon Water Reclamation Facility. The FWSA has issued debt to finance this project. During 2011, this project was completed and the City assumed responsibility for partial debt service of this plant.

In November 2013, the City, along with the FWSA, the County of Frederick, and the Frederick County Sanitation Authority, approved the Green Energy Project (the “Project”) for the purpose of implementing a series of capacity and efficiency improvements to the Opequon Water Reclamation Facility. To finance this project, the FWSA authorized the issuance of \$53,000,000 in bonds. In late fiscal year 2017, the Project began accepting waste. The City has assumed responsibility for a portion of the related debt service in the approximate amount of \$25,092,500.

Current Year Refunding of Debt

In November 2019, the City issued a revenue bond totaling \$6,555,000 for the purpose of refunding \$7,585,000 of outstanding series 2010C bonds. The proceeds were placed in trust with an escrow agent to fund all future debt service payments. As a result, the refunded bonds are considered to be defeased, and the liability has been removed from the City’s long-term debt. This advance refunding was undertaken to reduce total debt service payments over the next eleven years by \$777,883, resulting in an economic gain of \$701,816.

Prior Defeasance of Debt

In addition to the current year refunding, the City defeased certain outstanding general obligation and revenue bonds payable in prior years. The proceeds were placed in trust to fund all future debt service payments. Accordingly, the trust account assets and liabilities for the defeased bonds are not included in the City’s financial statements. At June 30, 2020, the following bonds are considered defeased:

	<u>Beginning Balance</u>	<u>Increases</u>	<u>Decreases</u>	<u>Ending Balance</u>
General obligation bonds				
PIB Series 2007	\$ 3,980,000	\$ -	\$ (370,000)	\$ 3,610,000

Note 10. Contingent Liabilities and Commitments

Federal programs in which the City participates were audited in accordance with provisions of the *Uniform Guidance*. Pursuant to the provisions of this document, all major programs were tested for compliance with applicable grant requirements. While no matters of material noncompliance were disclosed by audit, the Federal government may subject grant programs to additional compliance tests, which may result in disallowed expenditures. In the opinion of management, any future disallowances of current grant program expenditures, if any, would be immaterial.

The City is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the City’s counsel, the resolution of these matters will not have a material adverse effect on the financial condition of the government.

As of June 30, 2020, the City owes approximately \$134,000 to BB&T as a result of BB&T filing amended tax returns for 2012, 2013, and 2014 and is recorded in accounts payable in the General Fund. Since banks pay a portion of their franchise tax to the locality in which they reside, the amended tax returns resulted in a total refund due to BB&T of \$268,059. Half of this refund was paid prior to June 30, 2020, with the remaining expected to be paid in 2021.

CITY OF WINCHESTER, VIRGINIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

Note 11. Defined Benefit Pension Plan

Plan Description

All full-time, salaried permanent employees of the City, (the “Political Subdivision”) are automatically covered by the VRS Retirement Plan upon employment. This multi-employer agent plan is administered by the Virginia Retirement System (the System) along with plans for other employer groups in the Commonwealth of Virginia. Members earn one month of service credit for each month they are employed and for which they and their employer pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the *Code of Virginia*, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service.

The System administers three different benefit structures for covered employees – Plan 1, Plan 2, and Hybrid. Each of these benefit structures has a different eligibility criteria. The specific information for each plan and the eligibility for covered groups within each plan are available at

- <https://www.varetire.org/members/benefits/defined-benefit/plan1.asp>,
- <https://www.varetire.org/members/benefits/defined-benefit/plan2.asp>,
- <https://www.varetirement.org/hybrid.html>.

Employees Covered by Benefit Terms

As of the June 30, 2018 actuarial valuation, the following employees were covered by the benefit terms of the pension plan:

	<u>City</u>	<u>WPA</u>	<u>School Non- Professional</u>
Inactive members or their beneficiaries currently receiving benefits	<u>272</u>	<u>2</u>	<u>49</u>
Inactive members:			
Vested inactive members	77	-	7
Non-vested inactive members	144	1	20
Inactive members active elsewhere in VRS	<u>183</u>	<u>1</u>	<u>10</u>
Total inactive members	404	2	37
Active members	<u>467</u>	<u>3</u>	<u>89</u>
Total covered employees	<u>1,143</u>	<u>7</u>	<u>175</u>

(Continued)

CITY OF WINCHESTER, VIRGINIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

Note 11. Defined Benefit Pension Plan (Continued)

Contributions

The contribution requirement for active employees is governed by §51.1-145 of the Code of Virginia, as amended, but may be impacted as a result of funding options provided to political subdivisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement.

The City and WPA's contractually required contribution rate for the year ended June 30, 2020 was 8.47% of covered employee compensation. The School Board Non-Professional Employee Plan's contractually required contribution rate for the year ended June 30, 2020 was 5.35% of covered employee compensation. These rates were based on actuarially determined rates from actuarial valuations as of June 30, 2018.

These rates, when combined with employee contributions, were expected to finance the costs of benefits earned by employees during the year, with additional amounts to finance any unfunded accrued liability. Contributions to the pension plan from the City were \$2,144,551 and \$2,050,654 for the years ended June 30, 2020 and June 30, 2019, respectively. Contributions to the pension plan from the WPA were \$12,328 and \$13,165 for the years ended June 30, 2020 and June 30, 2019, respectively. Contributions to the pension plan from School Board Non-Professional Employee Plan were \$134,192 and \$127,729 for the years ended June 30, 2020 and June 30, 2019, respectively.

Net Pension Liability

The net pension liability is calculated separately for each employer and represents that particular employer's total pension liability determined in accordance with GASB Statement No. 68, less that employer's fiduciary net position. For political subdivisions, the net pension liability was measured as of June 30, 2019. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of June 30, 2018 rolled forward to the measurement date of June 30, 2019.

Actuarial Assumptions

The total pension liability for General Employees in the Political Subdivision's Retirement Plan was based on an actuarial valuation as of June 30, 2018, using the Entry Age Normal actuarial cost method and the following assumptions, applied to all periods included in the measurement and rolled forward to the measurement date of June 30, 2019.

(Continued)

CITY OF WINCHESTER, VIRGINIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

Note 11. Defined Benefit Pension Plan (Continued)

Actuarial Assumptions (Continued)

Inflation	2.50%
General Employees - Salary increases, including inflation	3.50 – 5.35%
Public Safety Employees with hazardous duty benefits - Salary increases, including inflation	3.50 – 4.75%
Investment rate of return	6.75%, net of pension plan investment expense, including inflation*

* Administrative expenses as a percent of the market value of assets for the last experience study were found to be approximately 0.06% of the market assets for all of the VRS plans. This would provide an assumed investment rate for GASB purposes of slightly more than the assumed 6.75%. However, since the difference was minimal, and a more conservative 6.75% investment return assumption provided a projected plan net position that exceeded the projected benefit payments, the long-term expected rate of return on investments was assumed to be 6.75% to simplify preparation of pension liabilities.

Mortality rates: General employees – 15 to 20% of deaths are assumed to be service related. Public Safety Employees – 70% of deaths are assumed to be service related. Mortality is projected using the applicable RP-2014 Mortality Table Projected to 2020 with various set backs or set forwards for both males and females.

The actuarial assumptions used in the June 30, 2018 valuation were based on the results of an actuarial experience study for the period from July 1, 2012 through June 30, 2016, except the change in the discount rate, which was based on VRS Board action effective July 1, 2019. Changes to the actuarial assumptions as a result of the experience study are as follows:

General Employees – Largest 10 – Non-Hazardous Duty and All Others (Non 10 Largest): Update mortality table; lowered retirement rates at older ages, changed final retirement from 70 to 75; adjusted withdrawal rates to better fit experience at each year, age, and service through 9 years of service; lowered disability rates, no change to salary scale, increased rate of line of duty disability from 14% to 20% (Largest 10) or 15% (All Others), and decreased discount rate from 7.00% to 6.75%.

Public Safety Employees – Largest 10 – Hazardous Duty and All Others (Non 10 Largest): Update mortality table; lowered retirement rate at older ages; adjusted rates of withdrawal and disability to better fit experience; changes to line of duty rates, no changes to salary scale, and decreased discount rate from 7.00% to 6.75%.

(Continued)

CITY OF WINCHESTER, VIRGINIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

Note 11. Defined Benefit Pension Plan (Continued)

Long-Term Expected Rate of Return

The long-term expected rate of return on pension System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class (Strategy)</u>	<u>Target Allocation</u>	<u>Arithmetic Long-Term Expected Rate of Return</u>	<u>Weighted Average Long-Term Expected Rate of Return</u>
Public Equity	34.00 %	5.61 %	1.91 %
Fixed Income	15.00	0.88	0.13
Credit Strategies	14.00	5.13	0.72
Real Assets	14.00	5.27	0.74
Private Equity	14.00	8.77	1.23
MAPS – Multi-Asset Public Strategies	6.00	3.52	0.21
PIP – Private Investment Partnership	3.00	6.29	0.19
Total	100.00 %		<u>5.13 %</u>
	Inflation		<u>2.50 %</u>
	*Expected arithmetic nominal return		<u>7.63 %</u>

- * The above allocation provides for a one-year return of 7.63%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected rate of return for the system, stochastic projections are employed to model future returns under various economic conditions. The results provide a range of returns over various time periods that ultimately provide a median return of 7.11%, including expected inflation of 2.50%. The VRS Board elected a long-term rate of 6.75% which is roughly at the 40th percentile of expected long-term results of the VRS fund allocation.

(Continued)

CITY OF WINCHESTER, VIRGINIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

Note 11. Defined Benefit Pension Plan (Continued)

Discount Rate

The discount rate used to measure the total pension liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Consistent with the phased-in funding provided by the General Assembly for state and teacher employer contributions, political subdivisions were also provided with an opportunity to use an alternate employer contribution rate. For the year ended June 30, 2019, the alternate rate was the employer contribution rate used in FY 2012 or 100% of the actuarially determined employer contribution rate from the June 30, 2017 actuarial valuations, whichever is greater. From July 1, 2019 on, participating employers are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

Pension Plan Data

Information about the VRS Political Subdivision Retirement Plans is also available in the separately issued VRS 2019 Comprehensive Annual Financial Report (CAFR). A copy of the 2019 VRS CAFR may be downloaded from the VRS website at <http://www.varetire.org/Pdf/Publications/2019-annual-report.pdf>, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

Note 12. Defined Benefit Pension Plan – Teacher Cost Sharing Plan

General Information about the Teacher Cost Sharing Plan

Plan Description

All full-time, salaried permanent (professional) employees of Virginia school divisions, including Winchester City Public Schools, (the "School Division"), are automatically covered by the VRS Teacher Retirement Plan upon employment. This multiple employer, cost sharing plan is administered by the Virginia Retirement System (the System) along with plans for other employer groups in the Commonwealth of Virginia. Members earn one month of service credit for each month they are employed and for which they and their employers pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the *Code of Virginia*, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously funded service.

The System administers three different benefit structures for covered employees in the VRS Teacher Retirement Plan – Plan 1, Plan 2, and Hybrid. The provisions and features of the plans, as well as all actuarial assumptions, are substantially the same as those described in Note 11.

Contributions

The contribution requirement for active employees is governed by §51.1-145 of the Code of Virginia, as amended, but may be impacted as a result of funding provided to school divisions by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement. Each school division's contractually required contribution rate for the year ended June 30, 2020 was 15.68% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2018. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits earned by employee during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the school division were \$4,687,085 and \$4,523,107 for the years ended June 30, 2020 and June 30, 2019, respectively.

Note 12. Defined Benefit Pension Plan – Teacher Cost Sharing Plan (Continued)

General Information about the Teacher Cost Sharing Plan (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020, the school division reported a liability of \$46,466,019 for its proportionate share of the Net Pension Liability. The Net Pension Liability was measured as of June 30, 2019 and the total pension liability used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date. The school division's proportion of the Net Pension Liability was based on the school division's actuarially determined employer contributions to the pension plan for the year ended June 30, 2019 relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2019, the school division's proportion was 0.35% as compared to 0.36% at June 30, 2018.

For the year ended June 30, 2020, the school division recognized pension expense of \$4,635,443. Since there was a change in proportionate share between measurement dates, a portion of the pension expense was related to deferred amounts from changes in proportion and from differences between employer contributions and the proportionate share of employer contributions.

At June 30, 2020, the school division reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
	<u> </u>	<u> </u>
Differences between expected and actual experience	\$ -	\$ 2,975,415
Changes of assumptions	4,601,225	-
Net difference between projected and actual earnings on pension plan investments	-	1,020,284
Changes in proportion and differences between employer contributions and proportionate share of contributions	138,460	2,188,476
Employer contributions subsequent to the measurement date	<u>4,687,085</u>	<u>-</u>
Total	<u><u>\$ 9,426,770</u></u>	<u><u>\$ 6,184,175</u></u>

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

The \$4,687,085 reported as deferred outflows of resources related to pensions resulting from the school division’s contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,	Increase (Reduction) to Pension Expense
2021	\$ (483,391)
2022	(1,516,956)
2023	(127,092)
2024	430,933
2025	252,016
Thereafter	-

Net Pension Liability

The net pension liability (NPL) is calculated separately for each system and represents that particular system’s total pension liability determined in accordance with GASB Statement No. 67, less that system’s fiduciary net position. As of June 30, 2019, NPL amounts for the VRS Teacher Employee Retirement Plan is as follows (amounts expressed in thousands):

	Teacher Employee Retirement Plan
Total Pension Liability	\$ 49,683,336
Plan Fiduciary Net Position	36,522,769
Employers’ Net Pension Liability (Asset)	\$ 13,160,567

Plan Fiduciary Net Position as a Percentage of the Total Pension Liability 73.51%

NOTES TO FINANCIAL STATEMENTS
June 30, 2020

Note 12. Defined Benefit Pension Plan – Teacher Cost Sharing Plan (Continued)

General Information about the Teacher Cost Sharing Plan (Continued)

Net Pension Liability (Continued)

The total pension liability is calculated by the System’s actuary, and each plan’s fiduciary net position is reported in the System’s financial statements. The net pension liability is disclosed in accordance with the requirements of GASB Statement No. 67 in the System’s notes to the financial statements and required supplementary information.

Sensitivity of the School Division’s Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the school division’s proportionate share of the net pension liability of the school division using the discount rate of 6.75%, as well as what the school division’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (5.75%) or one percentage point higher (7.75%) than the current rate:

	1.00% Decrease (5.75%)	Current Discount Rate (6.75%)	1.00% Increase (7.75%)
School division’s proportionate share of the VRS Teacher Employee Retirement plan net pension liability	\$ 69,951,544	\$ 46,466,019	\$ 27,047,839

Pension Plan Fiduciary Net Position

Detailed information about the VRS Teacher Retirement Plan’s Fiduciary Net Position is available in the separately issued VRS 2019 Comprehensive Annual Financial Report (CAFR). A copy of the 2019 VRS CAFR may be downloaded from the VRS website at <http://www.varetire.org/Pdf/Publications/2019-annual-report.pdf>, or by writing to the System’s Chief Financial Officer at P.O. Box 2500, Richmond, VA, 23218-2500.

Payables to the Pension Plan

At June 30, 2020, approximately \$690,000 was payable to the Virginia Retirement System for the legally required contributions related to June 2020 payroll for the Teacher Cost Sharing Plan and School Board Non-Professional Employee Plan combined.

(Continued)

CITY OF WINCHESTER, VIRGINIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

Note 13. Other Postemployment Benefits Liability – Local Plan

Plan Description and Benefits Provided

The City of Winchester administers a cost-sharing defined benefit healthcare plan (the “Retiree Health Plan”). Participating employers include the City, the WPA, the Northwestern Juvenile Detention Center Commission, and the Frederick-Winchester Service Authority. The plan provides healthcare insurance for eligible retirees and coverage ceases at age 65. Retirees under age 65 have the option of choosing three medical plans including a prescription program for retail and a mail order program. Retirees can continue the same medical coverage they had (including dependent coverage) as active employees. There is one grandfathered retiree over age 65 where their entire individual premium is subsidized for life. The plan was established under the authority of the City of Winchester’s Council. Management of the plan is vested in the City’s OPEB Finance Board, which is comprised of the City’s CFO, Treasurer, and a citizen representative.

Summary of Significant Accounting Policies

Employer contributions to the plan are recognized when due and the City has made a formal commitment to provide the contributions. Benefits are recognized when due and payable in accordance with the terms of the plan. All plan investments are reported at fair value. Securities traded on a national exchange are valued at the last reported sales price on June 30. Securities without an established market are reported at estimated fair value.

Employees Covered by Benefit Terms

As of the January 1, 2020 actuarial valuation, the following employees were covered by the benefit terms of the plan, including City, WPA and other employers:

Inactive employees or beneficiaries:	
Currently receiving benefits	29
Active plan members	513
Total	542

Investment Policies

The City’s policy for the allocation of invested assets is established and may be amended by the OPEB Finance Board. It is the policy of the OPEB Finance Board to ensure that assets are diversified to minimize the impact of large losses from individual investments, and to achieve a long-term level of return commensurate with contemporary economic conditions. The investment policy discourages the use of cash equivalents, except for liquidity purposes.

(Continued)

CITY OF WINCHESTER, VIRGINIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

Note 13. Other Postemployment Benefits Liability – Local Plan (Continued)

Contributions

Contribution requirements are established by City Council. The required contribution is based on projected pay-as-you-go financing requirements, with an additional amount to prefund benefits as determined annually. Contributions to the OPEB plan from the City were \$317,000 for the year ended June 30, 2020.

Net OPEB Liability

At June 30, 2020, the City and WPA reported liabilities of \$3,969,926 and \$35,799, respectively for their proportionate shares of the collective net OPEB liability. The collective net OPEB liability was measured as of June 30, 2020, and the total OPEB liability used to calculate the collective net OPEB liability was determined by an actuarial valuation as of January 1, 2020. The City's and WPA's proportion of the collective net OPEB liability was based on a projection of the City's and WPA's long-term share of contributions to the OPEB plan relative to the projected contributions of all participating employers actuarially determined. At June 30, 2020, the City's and WPA's proportion was 95.10%, which was a decrease of 0.25% from its proportion measured as of June 30, 2019.

	City and WPA	Other employers	Total
Total OPEB liability	\$ 8,475,615	\$ 436,704	\$ 8,912,319
Plan fiduciary net position	4,469,890	230,310	4,700,200
Employers' net OPEB liability	<u>\$ 4,005,725</u>	<u>\$ 206,394</u>	<u>\$ 4,212,119</u>
Plan fiduciary net position as a percentage of total OPEB liability	52.74%	52.74%	52.74%

Actuarial Assumptions and Other Inputs

In the January 1, 2020 actuarial valuation, the entry age normal cost method was used. The actuarial assumptions include a 6.50% investment rate of return (net of administrative expenses), which is the expected long-term investment returns on the plan's investments calculated based on the funded level of the plan at the valuation date.

The following additional simplifying assumptions were made:

Coverage Status and Age of Spouse – Actual coverage status is used; females assumed to be three years younger than male spouse. Employees with individual coverage are assumed to elect individual coverage in retirement; those with spouse/family coverage assumed to continue this coverage at retirement.

Election Rate – 90% of actives currently enrolled in the City's health care plan will continue in the plan upon retiring or becoming disabled.

(Continued)

CITY OF WINCHESTER, VIRGINIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

Note 13. Other Postemployment Benefits Liability – Local Plan (Continued)

Demographic Assumptions – Demographic assumptions mirror those used for the pension plan, with adjustments made for actual experience of City employees. All employees are assumed to participate in the Virginia Retirement System.

Economic Assumptions – The medical trend assumption was changed from developed using the Society of Actuaries (SOA) Long-Run Medical Cost Trend Model baseline assumptions. The updated SOA Model was released in April 2010 and updated September 2019. The following assumptions were used as input variables into this model:

▪ Rate of Inflation	2.50%
▪ Rate of Growth in Real Income / GNP per capita	1.50%
▪ Extra Trend due to Technology and other factors	1.10%
▪ Health Share of GDP Resistance Point	25.00%
▪ Year for Limiting Cost Growth to GDP Growth	2075

Payroll is assumed to increase at 2.50% per annum. This assumption is used to determine the level percentage of payroll amortization factor. Inflation is assumed to be 2.50% per annum.

Long-Term Expected Rate of Return

The long-term expected rate of return on OPEB investments was determined using an economic building block approach that projects economic and corporate profit growth and takes into consideration the fundamental factors driving long-term real economic growth, the expectation for inflation of 2.50%, productivity, and labor force growth.

<u>Asset Class (Strategy)</u>	<u>Target Allocation</u>	<u>Capital Market Assumptions</u>	<u>Expected Long-term Return (Net of Inflation)</u>
Domestic Equity	39.00 %	5.70 %	7.40 %
International Developed Equity	15.00	6.00	7.30
International Emerging Markets Equity	6.00	5.80	7.40
Core Fixed	20.00	1.50	4.90
Investment Grade Corporate Debt	10.00	1.70	5.80
Emerging Markets Debt	5.00	3.50	6.50
High Yield	5.00	3.80	6.40
Total	100.00 %		
	Inflation		<u>2.50 %</u>

(Continued)

CITY OF WINCHESTER, VIRGINIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

Note 13. Other Postemployment Benefits Liability – Local Plan (Continued)

Discount Rate

The discount rate used to measure the net OPEB liability was 6.50%. The projection of cash flows used to determine the discount rate assumed that contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total OPEB liability.

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liability of the political subdivision, as well as what the political subdivision's net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (5.50%) or one percentage point higher (7.50%) than the current discount rate:

	1.00% Decrease (5.50%)	Current Discount Rate (6.50%)	1.00% Increase (7.50%)
Net OPEB liability – City	\$ 4,962,272	\$ 3,969,926	\$ 3,101,708
Net OPEB liability – WPA	44,748	35,799	27,970
Net OPEB liability – Other Employers	257,985	206,394	161,256
Total	<u>\$ 5,265,005</u>	<u>\$ 4,212,119</u>	<u>\$ 3,290,934</u>

Sensitivity of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following presents the net OPEB liability of the political subdivision, as well as what the political subdivision's net OPEB liability would be if it were calculated using healthcare cost trend rates that are one percentage point lower (3.04%) or one percentage point higher (5.04%) than the current healthcare cost trend rates:

	1.00% Decrease (3.04%)	Current Healthcare Cost Trend Rates (4.04%)	1.00% Increase (5.04%)
Net OPEB liability – City	\$ 2,964,444	\$ 3,969,926	\$ 5,169,394
Net OPEB liability – WPA	26,732	35,799	46,616
Net OPEB liability – Other Employers	154,120	206,394	268,753
Total	<u>\$ 3,145,296</u>	<u>\$ 4,212,119</u>	<u>\$ 5,484,763</u>

Note 14. Other Postemployment Benefits Liability – Virginia Retirement System Plans

In addition to their participation in the pension plans offered through the Virginia Retirement System (VRS), the City, Schools, and WPA also participates in various cost-sharing and agent multi-employer other postemployment benefit plans, described as follows.

Plan Descriptions

Group Life Insurance Program

All full-time teachers and employees of political subdivisions are automatically covered by the VRS Group Life Insurance (GLI) Program upon employment.

In addition to the Basic Group Life Insurance Benefit, members are also eligible to elect additional coverage for themselves as well as a spouse or dependent children through the Optional Group Life Insurance Program. For members who elect the optional group life insurance coverage, the insurer bills employers directly for the premiums. Employers deduct these premiums from members' paychecks and pay the premiums to the insurer. Since this is a separate and fully insured program, it is not included as part of the GLI Program OPEB.

Specific information for the GLI is available at <https://www.varetire.org/members/benefits/life-insurance/basic-group-life-insurance.asp>

Teacher Employee Health Insurance Credit Program

All full time, salaried permanent (professional) employees of public school divisions are automatically covered by the VRS Teacher Employee Health Insurance Credit (HIC) Program. Members earn one month of service credit toward the benefit for each month they are employed and for which their employer pays contributions to VRS. The health insurance credit is a tax-free reimbursement in an amount set by the General Assembly for each year of service credit against qualified health insurance premiums retirees pay for single coverage, excluding any portion covering the spouse or dependents. The credit cannot exceed the amount of the premiums and ends upon the retiree's death.

Specific information about the Teacher HIC is available at <https://www.varetire.org/retirees/insurance/healthinscredit/index.asp>

The GLI and Teacher HIC are administered by the VRS along with pensions and other OPEB plans, for public employer groups in the Commonwealth of Virginia. Both of these plans are considered multiple employer, cost sharing plans.

CITY OF WINCHESTER, VIRGINIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

Note 14. Other Postemployment Benefits Liability – Virginia Retirement System Plans (Continued)

General Employee Health Insurance Credit Program

The General Employee Health Insurance Credit Program (HIC) is available for all full time, salaried employees of local government entities other than Teachers. The General Employee HIC provides all the same benefits as the Teacher HIC, except that this plan is considered a multi-employer agent plan.

As of the June 30, 2018 actuarial valuation, the following employees were covered by the benefit terms of the General Employee Health Insurance Credit Program:

	<u>City</u>	<u>WPA</u>	<u>Schools Non-Professional Employees</u>
Inactive members or their beneficiaries currently receiving benefits	49	-	16
Inactive members:			
Vested inactive members	-	-	-
Total inactive members	49	-	16
Active members	364	3	89
Total covered employees	<u>413</u>	<u>3</u>	<u>105</u>

Line of Duty Act Program

All paid employees and volunteers in hazardous duty positions in Virginia localities and hazardous duty employees who are covered under the VRS are automatically covered by the Line of Duty Act Program (LODA). As required by statute, the VRS is responsible for managing the assets of the program. Participating employers made contributions to the program beginning in 2012. The employer contributions are determined by the VRS actuary using anticipated program costs and the number of covered individuals associated with all participating employers. The LODA is considered a multiple employer, cost sharing plan.

Specific information about the LODA is available at <https://www.valoda.org/>

Contributions

Contributions to the VRS OPEB programs were based on actuarially determined rates from actuarial valuations as of June 30, 2017. The actuarially determined rates were expected to finance the cost of benefits earned by employees during the year, with an additional amount to fund any unfunded accrued liability. Specific details related to the contributions for the VRS OPEB programs are as follows:

Group Life Insurance Program

Governed by:	<i>Code of Virginia 51.1-506 and 51.1-508 and may be impacted as a result of funding provided to school divisions and governmental agencies by the Virginia General Assembly.</i>
Total rate:	1.31% of covered employee compensation. Rate allocated 60/40; 0.79% employee and 0.52% employer. Employers may elect to pay all or part of the employee contribution.

	City	WPA	Schools
June 30, 2020 Contribution	\$131,667	\$913	\$175,154
June 30, 2019 Contribution	\$123,468	\$863	\$168,064

Teacher Health Insurance Credit Program

Governed by:	<i>Code of Virginia 51.1-1401(E) and may be impacted as a result of funding provided to school divisions by the Virginia General Assembly.</i>
Total rate:	1.20% of covered employee compensation.
June 30, 2020 Contribution	\$373,337
June 30, 2019 Contribution	\$356,531

General Employee Health Insurance Credit Program

Governed by:	<i>Code of Virginia 51.1-1402(E)</i> and may be impacted as a result of funding provided to governmental agencies by the Virginia General Assembly.
Total rate:	0.12% of covered employee compensation.

	City	WPA	Schools
June 30, 2019 Contribution	\$23,491	\$204	\$6,016
June 30, 2019 Contribution	\$22,005	\$199	\$5,607

Line of Duty Act Program

Governed by:	<i>Code of Virginia 9-1-400.1</i> and may be impacted as a result of funding provided to governmental agencies by the Virginia General Assembly.
Total rate:	\$705.77 per covered full-time-equivalent employee. Based on pay-as-you-go funding rate.
June 30, 2020 Contribution	\$130,391
June 30, 2019 Contribution	\$124,039

OPEB Liabilities, OPEB Expense and Deferred Inflows and Outflows of Resources Related to OPEB

The net OPEB liabilities were measured as of June 30, 2019 and the total OPEB liabilities used to calculate the net OPEB liabilities were determined by actuarial valuations as of that date. The covered employer's proportion of the net OPEB liabilities, except for LODA, were based on the covered employer's actuarially determined employer contributions for the year ended June 30, 2019 relative to the total of the actuarially determined employer contributions for all participating employers. LODA proportion was determined based on pay-as-you-go employer contributions instead of actuarially determined contributions.

Net OPEB Liabilities

The net OPEB liabilities represent each program’s total OPEB liability determined in accordance with GASB Statement No. 74, less the associated fiduciary net position. As of June 30, 2019, net OPEB liability amounts for the various VRS OPEB programs are as follows (amounts expressed in thousands):

	Group Life Insurance Program	Teacher Employee HIC OPEB Plan	Line of Duty Act Program
Total OPEB Liability	\$ 3,390,238	\$ 1,438,114	\$ 361,626
Plan fiduciary net position	1,762,972	129,016	2,839
Employers’ net OPEB liability (asset)	\$ 1,627,266	\$ 1,309,098	\$ 358,787
Plan fiduciary net position as a percentage of total OPEB liability	52.00%	8.97%	0.79%

The total liability is calculated by the VRS actuary and each plan’s fiduciary net position is reported in the VRS financial statements. The net OPEB liability is disclosed in accordance with the requirements of GASB Statement No. 74 in the VRS notes to the financial statements and required supplementary information.

Note 14. Other Postemployment Benefits Liability – Virginia Retirement System Plans (Continued)

Long-Term Expected Rate of Return

Group Life Insurance and Health Insurance Credit Programs

The long-term expected rate of return on VRS investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class (Strategy)</u>	<u>Target Allocation</u>	<u>Arithmetic Long-Term Expected Rate of Return</u>	<u>Weighted Average Long-Term Expected Rate of Return</u>
Public Equity	34.00 %	5.61 %	1.91 %
Fixed Income	15.00	0.88	0.13
Credit Strategies	14.00	5.13	0.72
Real Assets	14.00	5.27	0.74
Private Equity	14.00	8.77	1.23
MAPS – Multi-Asset Public Strategies	6.00	3.52	0.21
PIP – Private Investment Partnership	3.00	6.29	0.19
Total	100.00 %		<u>5.13 %</u>
	Inflation		<u>2.50 %</u>
	*Expected arithmetic nominal return		<u>7.63 %</u>

* The above allocation provides for a one-year return of 7.63%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected rate of return for the system, stochastic projections are employed to model future returns under various economic conditions. The results provide a range of returns over various time periods that ultimately provide a median return of 7.11%, including expected inflation of 2.50%. The VRS Board elected a long-term rate of 6.75% which is roughly at the 40th percentile of expected long-term results of the VRS fund asset allocation.

(Continued)

CITY OF WINCHESTER, VIRGINIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

Note 14. Other Postemployment Benefits Liability – Virginia Retirement System Plans (Continued)

Line of Duty Act Program

The long-term expected rate of return on the LODA Program's investments was set at 3.50% for this valuation. Since LODA is funded on a current-disbursement basis, it is not able to use the VRS pooled investments 6.75% assumption noted above. Instead, the assumed annual rate of return of 3.50% was used since it approximates the risk-free rate of return. The Single Equivalent Interest Rate (SEIR) is the applicable municipal bond index rate based on the Bond Buyer General Obligation 20-year Municipal Bond Index published by the Board of Governors of the Federal Reserve System as of the measurement date of June 30, 2019.

Discount Rate

The discount rate used to measure the GLI and HIC OPEB liabilities was 6.75%. The discount rate used to measure the LODA OPEB liability was 3.50%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Guidance and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ending June 30, 2019, the rate contributed by the employer for the OPEB liabilities will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly. From July 1, 2019 on, participating employers are assumed to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the OPEB plans' fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total OPEB liability.

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liabilities of the City, WPA, and Schools, as well as what the net OPEB liabilities would be if it were calculated using a discount rate that is one percentage point lower (5.75% HIC; GLI/2.50% LODA) or one percentage point higher (7.75% HIC; GLI/4.50% LODA) than the current discount rate:

	(2.50 %)	(3.50 %)	(4.50 %)
LODA Net OPEB liability	\$ 3,846,682	\$ 3,316,000	\$ 2,896,088

Sensitivity of the LODA Net OPEB Liability to Changes in the Healthcare Cost Trend Rates

Because the Line of Duty Act Program (LODA) contains provisions for the payment of health insurance premiums, the liabilities are also impacted by the health care trend rates. The following presents the LODA net OPEB liability of the City using health care trend rate of 7.75% decreasing to 4.75%, as well as what the City's LODA net OPEB liability would be if it were calculated using healthcare cost trend rates that are one percentage point lower (6.75% decreasing to 3.75%) or one percentage point higher (8.75% decreasing to 5.75%) than the current healthcare cost trend rates:

	1.00% Decrease (6.75% decreasing to 3.75%)	Current Healthcare Cost Trend Rates (7.75% decreasing to 4.75%)	1.00% Increase (8.75% decreasing to 5.75%)
LODA Net OPEB liability	\$ 2,803,562	\$ 3,316,000	\$ 3,962,015

Note 16. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City has joined together with other cities and counties in the Virginia Liability Risk Management Plan (VARISK2), a Commonwealth of Virginia risk pool currently operating as a risk management program for public body members in Virginia. The City pays an annual premium to VARISK2 for its public officials general law enforcement and medical malpractice liability insurance coverage. The Department of Treasury obtains its authority to act from the statutory provisions of the Code and will limit liability up to \$1 million for each insured event.

CITY OF WINCHESTER, VIRGINIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

Note 16. Risk Management (Continued)

Through the Virginia Municipal League, the City has joined together with other Virginia public bodies in the Virginia Municipal League Insurance Programs pools currently operating as common risk management and insurance programs for members in Virginia. The City pays an annual premium to VML Insurance Programs for its workers' compensation and employer's liability, general liability, excess property, crime, and automobile coverage. The agreement for formation of the VML Insurance Programs Pool provides that it will be self-sustaining through member premiums. Workers' compensation coverage provides the benefits as set forth in the Virginia Workers' Compensation Act. VML Insurance Programs will reinsure through commercial insurance companies for claims in excess of \$5 million for general liability, and \$5 million for automotive liability. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Through the Virginia School Board Association, the School Board has joined together with other localities in the VSBA Insurance Program and School Systems of VA Group Self-Insurance Association, public entity risk pools currently operating as an insurance program and common risk management for several member city and county school boards in Virginia. The school board pays annual premiums to VSBA Insurance Program and School Systems of VA Group Self-Insurance Association for its employer liability insurance coverage and worker's compensation insurance coverage. The agreement for formation of VSBA Insurance Program and School Systems of VA Group Self-Insurance Association provides that it will be self-sustaining through member premiums. The Workers' compensation coverage provides the benefits set forth in the Virginia Workers' Compensation Act.

Note 17. Related Party Transactions

The Social Services fund has a 15 year lease for property that commenced during 2009 for which the City paid \$535,160 in 2020. The lease calls for monthly lease payments, and an additional deposit of \$40,000 is being held by the lessor. One member of the City's Common Council had an economic interest in the leasing company.

CITY OF WINCHESTER, VIRGINIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

Note 19. Subsequent Events

Subsequent to year end, the City approved the issuance of a \$32,655,000 taxable revenue bond with interest rates from 2.20% to 5.125% and maturity in October 2050. The proceeds will be used to fund future capital projects in the Water and Sewer fund. Additionally, the City approved the issuance of a \$24,625,000 general obligation public improvement bond. A portion of this bond will be used to refund the City's outstanding 2015 and 2016 bonds.

Subsequent to year end, the Winchester Parking Authority awarded a contract to install a fully operating parking access and revenue control system in each of the four parking garages operated by the Parking Authority. Total cost will be approximately \$465,200.

As a result of COVID, the City received a second round of Federal funding in the amount of \$2,449,697 under the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) subsequent to year end. These funds must be spent by December 30, 2020. Additionally, the Virginia Department of Education has awarded the Schools CARES Act funding that must be expended by December 30, 2020. The Schools received \$749,595 subsequent to year end.

Note 20. COVID-19 Impact

On January 30, 2020, the World Health Organization ("WHO") announced a global health emergency because of a new strain of coronavirus (the "COVID-19 outbreak") and the risks to the international community as the virus spreads globally beyond its point of origin. In March 2020, the WHO classified the COVID-19 outbreak as a pandemic, based on the rapid increase in exposure globally.

The City's operations are heavily dependent on the ability to raise taxes, assess fees, and access the capital markets. Additionally, access to grants and contracts from federal and state governments may decrease or may not be available depending on appropriations. The outbreak will have a continued material adverse impact on economic and market conditions, triggering a period of global economic slowdown. This situation has depressed the tax bases and other areas in which the City received revenue during fiscal year 2020. As such, the City's financial condition and liquidity may be negatively impacted for the fiscal year 2021.

The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. As such, it is uncertain as to the full magnitude the pandemic will have on the City's financial condition, liquidity, and future results of operations. Management is actively monitoring the impact of the global situation on its financial condition, liquidity, operations, suppliers, industry, and workforce. Given the daily evolution of the COVID-19 outbreak and the global responses to curb its spread, the City is not able to estimate the effects of the COVID-19 outbreak on its results of operations, financial condition, or liquidity for fiscal year 2021.

CITY OF WINCHESTER, VIRGINIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

Note 21. New Accounting Standards

The Governmental Accounting Standards Board (GASB) has issued the following Statements which are not yet effective. The effective dates below are updated based on **Statement No. 95, Postponement of the Effective Dates of Certain Authoritative Guidance** due to the COVID-19 pandemic.

In January 2017, the GASB issued **Statement No. 84, Fiduciary Activities**. This Statement establishes standards of accounting and financial reporting for fiduciary activities. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019.

In June 2017, The GASB issued **Statement No. 87, Leases**. This Statement establishes standards of accounting and financial reporting for leases by lessees and lessors. The requirements of this Statement are effective for fiscal years beginning after June 15, 2021.

In March 2018, the GASB issued **Statement No. 88, Certain Disclosures Related to Debt, Including Direct Borrowings and Direct Placements**. This Statement improves the information disclosed in the notes to government financial statements related to debt. The requirements of this Statement are effective for fiscal years beginning after June 15, 2019.

In August 2018, the GASB issued **Statement No. 90, Majority Equity Interests, an amendment of GASB Statements No. 14 and No. 61**. This Statement improves the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and improves the relevance of financial statement information for certain component units. It defines a majority equity interest and specifies that a majority equity interest in a legally separate organization should be reported as an investment if a government's holding of the equity interest meets the definition of an investment. A majority equity interest that meets the definition of an investment should be measured using the equity method, unless it is held by a special-purpose government engaged only in fiduciary activities, a fiduciary fund, or an endowment (including permanent and term endowments) or permanent fund. Those governments and funds should measure the majority equity interest at fair value.

For all other holdings of a majority equity interest in a legally separate organization, a government should report the legally separate organization as a component unit, and the government or fund that holds the equity interest should report an asset related to the majority equity interest using the equity method. This Statement establishes that ownership of a majority equity interest in a legally separate organization results in the government being financially accountable for the legally separate organization and, therefore, the government should report that organization as a component unit.

CITY OF WINCHESTER, VIRGINIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

Note 21. New Accounting Standards (Continued)

This Statement also requires that a component unit in which a government has a 100 percent equity interest account for its assets, deferred outflows of resources, liabilities, and deferred inflows of resources at acquisition value at the date the government acquired a 100 percent equity interest in the component unit. Transactions presented in flows statements of the component unit in that circumstance should include only transactions that occurred subsequent to the acquisition.

The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. The requirements should be applied retroactively, except for the provisions related to (1) reporting a majority equity interest in a component unit and (2) reporting a component unit if the government acquires a 100 percent equity interest. Those provisions should be applied on a prospective basis.

In May 2019, the GASB issued **Statement No. 91, *Conduit Debt Obligations***. This Statement provides a single method of reporting conduit debt obligations by issuers and eliminates diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. The requirements of this Statement are effective for reporting periods beginning after December 15, 2021.

In January 2020, the GASB issued **Statement No. 92, *Omnibus***. This Statement enhances comparability in accounting and financial reporting and improves the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements. Certain requirements of this Statement are effective immediately and others for reporting periods beginning after June 15, 2021.

In March 2020, the GASB issued **Statement No. 93, *Replacement of Interbank Offered Rates***. This Statement addresses accounting and financial reporting implications that result from the replacement of an IBOR. The removal of LIBOR as an appropriate benchmark interest rate is effective for reporting periods ending after December 31, 2022. All other requirements of this Statement are effective for reporting periods beginning after June 15, 2021.

In March 2020, the GASB issued **Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements***. This Statement improves financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). The requirements of this Statement are effective for reporting periods beginning after June 15, 2022.

In May 2020, the GASB issued **Statement No. 96, *Subscription-Based Information Technology Arrangements***. This Statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). The requirements of this Statement are effective for reporting periods beginning after June 15, 2022.

(Continued)

CITY OF WINCHESTER, VIRGINIA
NOTES TO FINANCIAL STATEMENTS
June 30, 2020

Note 21. New Accounting Standards (Continued)

In June 2020, the GASB issued **Statement No. 97**, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans – an Amendment of GASB Statements No. 14 and No. 84, and a Supersession of GASB Statement No. 32*. This Statement provides a more consistent financial reporting of defined contribution pension plans, defined contribution OPEB plans, and other employee benefit plans, while mitigating the costs associated with reporting those plans. Certain requirements of this Statement are effective immediately and others for reporting periods beginning after June 15, 2021.

Management has not determined the effects these new GASB Statements may have on prospective financial statements.

CITY OF WINCHESTER, VIRGINIA

**NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
June 30, 2020**

Note 1. Changes of Benefit Terms

Pension

There have been no actuarially material changes to the Virginia Retirement System (System) benefit provisions since the prior actuarial valuation.

Note 2. Changes of Assumptions

The actuarial assumptions used in the June 30, 2018, valuation were based on the results of an actuarial experience study for the period from July 1, 2012, through June 30, 2016, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

Largest 10 – Non-Hazardous Duty:

- Update mortality table to RP-2014 projected to 2020
- Lowered rates at older ages and extended final retirement age from 70 to 75
- Update withdrawal rates to better fit experience at each age and service year
- Lowered rates of disability retirement
- No changes to salary rates
- Increased Line of Duty Disability rates from 14% to 20%
- Decrease discount rate from 7.00% to 6.75%

Largest 10 – Hazardous Duty/Public Safety Employees:

- Update mortality table to RP-2014 projected to 2020
- Lowered rates of retirement at older ages
- Update withdrawal rates to better fit experience
- Increased disability rates
- No changes to salary rates
- Increased Line of Duty disability rates from 60% to 70%
- Decreased discount rate from 7.00% to 6.75%

All Others (Non 10 Largest) – Non-Hazardous Duty:

- Update mortality table to RP-2014 projected to 2020
- Lowered rates of retirement at older ages and changed final retirement from 70 to 75
- Update withdrawal rates to better fit experience at each age and service year
- Lowered disability rates
- No changes to salary rates
- Increased Line of Duty disability rate from 14% to 15%
- Decreased discount rate from 7.00% to 6.75%

(Continued)

CITY OF WINCHESTER, VIRGINIA

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
June 30, 2020

Note 2. Changes of Assumptions (Continued)

All Others (Non 10 Largest) – Hazardous Duty/Public Safety Employees:

- Update mortality table to RP-2014 projected to 2020
- Increased retirement rate at age 50 and lowered rates at older ages
- Update withdrawal rates to better fit experience at each age and service year
- Update disability rates to better fit experience
- No changes to salary rates
- Lowered Line of Duty rate from 60% to 45%
- Decreased discount rate from 7.00% to 6.75%

Teacher cost-sharing pool

- Update mortality table to RP-2014 projected to 2020
- Lowered retirement rates at older ages and changed final retirement from 70 to 75
- Update withdrawal rates to better fit experience at each year age and service through 9 years of service
- Update disability rates to better fit experience
- No changes to salary rates
- Decreased discount rate from 7.00% to 6.75%

NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

Social Services Fund – to account for the provision of health and welfare services. Financing is provided by state and federal funds, which may be used only for this purpose.

Highway Maintenance Fund – to account for the proceeds of state street and highway maintenance grants, and the related expenditure which is to be used for this purpose. This fund is only used for maintenance related expenditures, capital expenditures are recorded in other applicable funds.

Emergency Medical Services Fund – to account for the provision of emergency medical transportation services. Financing is provided by fees charged to customers and insurance providers.

Winchester-Frederick County Convention and Visitors Bureau Fund – to account for the costs of a shared visitors bureau. Financing is provided in equal amounts by the City of Winchester and Frederick County.

Law Library Fund – to account for the purchase of reference material for the law library. Financing is provided by a portion of court fines levied. Such funds are limited to expenditures for this purpose.

Transit Fund – to account for grants and monies received and used for operations of the City's public transit system.

THIS PAGE IS INTENTIONALLY LEFT BLANK.

DISCRETELY PRESENTED COMPONENT UNIT – SCHOOL BOARD

MAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

School Operating Fund – to account for the operations and maintenance of the schools. Financing is provided by state and federal funds, and by appropriations from the City’s general revenues. State and federal education funds received may be used only for this purpose. Annual appropriations from general revenues were restricted by the Appropriations Resolution to education expenditures.

CAPITAL PROJECTS FUNDS

School Fundraising Fund – created to account fundraising revenue and expenditures for the construction of school facilities.

School Capital Improvement Fund – created to account for unexpended school funds allowed by the Common Council to be carried over to future periods for school related capital projects.

School Construction Fund – created to account for the financing and construction of school capital projects. Currently, financing is provided by bond proceeds. Expenditures are for the construction of school facilities.

NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

School Cafeteria Fund – to account for the operation and maintenance of cafeterias of the schools. Financing is provided primarily from charges for services and federal and state lunch subsidiaries. Such funds are limited by federal and state law to expenditures for cafeteria operations and maintenance.

School Federal Grants Fund – to account for the proceeds from federal grants. Such funds are limited to specified educational expenditures that are governed by the terms of the grant.

School Textbook Fund – to account for the purchase and sale of school textbooks. Financing is provided primarily by the transfer of funds from the School Operating Fund and funds received are limited by the School Board to expenditures only for school textbooks.

**DISCRETELY PRESENTED COMPONENT UNIT – SCHOOL BOARD
(Continued)**

INTERNAL SERVICE FUND

School Insurance Fund – to account for the operation of a partially self-insured employee health insurance program. Receipts from the School Board and participating employees are used to pay claims and purchase insurance for excess claims.

FIDUCIARY FUNDS

PRIVATE-PURPOSE TRUST FUNDS

Newton B. Shingleton, M. Louise Cooper, and School Scholarship Funds – to account for donations received for the purpose of funding scholarships.

AGENCY FUNDS

School Activity Funds – to account for funds received from extracurricular school activities, and from any and all school sponsored activities of the Schools that involve school personnel, students, or property.

School Employee Benefits Fund – to account for funds withheld and payment of funds for payroll withholding taxes for all school employees.

Amounts reported for governmental activities in the Statement of Net Position (Exhibit 1) are different because:

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.	119,204,107
Other long-term assets are not available to pay for current-period expenditures and, therefore, are deferred in the funds.	312,607
Internal service funds are used by management to charge the costs of maintenance and risk management, to individual funds. The assets and liabilities of the internal service fund is included in governmental activities in the Statement of Net Position.	625,722
Long-term liabilities, including debt payable, are not due and payable in the current period and therefore are not reported in the funds.	
Compensated absences	(2,444,794)
Financial statement elements related to pensions are applicable to future periods and, therefore, are not reported in the funds.	
Pension related deferred outflows	9,811,106
Pension related deferred inflows	(6,307,974)
Net pension liability	<u>(46,513,242)</u>
Financial statement elements related to other postemployment benefits are applicable to future periods and, therefore, are not reported in the funds.	
Other postemployment benefit related deferred outflows	1,021,464
Other postemployment benefit related deferred inflows	(571,376)
Net other postemployment benefit liability	<u>(7,341,585)</u>

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds reported capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation (\$3,722,130) exceeded capital asset additions (\$4,015,908) in the current period.	293,778
Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.	(127,622)
Internal service funds are used by management to charge the costs of risk management, to individual funds. The net revenue (expense) of this internal service fund is reported with governmental activities.	402,420
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds.	
Compensated absences	(152,015)
Governmental funds report pension contributions as expenditures. However, in the Statement of Activities, the cost of pension benefits earned net of employee contributions is reported as pension expense.	
Employer pension contributions	4,821,277
Pension expense	<u>(4,749,772)</u>
	71,505
Governmental funds report OPEB contributions as expenditures. However, in the Statement of Activities, the cost of OPEB benefits earned net of employee contributions is reported as OPEB expense.	
Employer OPEB contributions	554,507
OPEB expense	<u>(386,675)</u>
	167,832
Change in net position of governmental activities	<u>\$ 9,798,303</u>

STATISTICAL SECTION

This part of the City of Winchester’s comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government’s overall financial health.

Contents	Pages
<i>Financial Trends – Tables 1 – 4</i>	
These schedules contain trend information to help the reader understand how the government’s financial performance and well-being have changed over time.	140-145
<i>Revenue Capacity – Tables 5 – 8</i>	
These schedules contain information to help the reader assess the government’s most significant local revenue source, the property tax.	146-149
<i>Debt Capacity – Tables 9 – 13</i>	
These schedules contain trend information to help the reader assess the affordability of the government’s current levels of outstanding debt and the government’s ability to issue additional debt in the future.	150-154
<i>Demographic and Economic Information – Tables 14 – 15</i>	
These schedules offer demographic and economic indicators to help the reader understand the environment within which the government’s financial activities take place	155-156
<i>Operating Information – Tables 16 – 18</i>	
These schedules contain service and infrastructure data to help the reader understand how the information in the government’s financial report relates to the services the government provides and activities it performs.	157-159

Sources: Unless otherwise noted, the information in these schedules is derived from the Comprehensive Annual Financial Reports for the relevant year.

Notes:

- (1) Property assessed at 100% of actual value. Tax rates are assessed per \$100 of assessed value.
- (2) General reassessment of real property completed for the 2009, 2011, 2013, 2015, 2017 and 2019 tax years.
- (3) Real Property tax rate for residential and commercial property is rate in effect for 1st half billing coming due in the current fiscal year.
- (4) Starting in 2020 Personal property billing began to transition from monthly in arrears to semi-annual current year causing the large increase, this increase should level out after several years and return to the prior historical trend.

2020	0.76	0.02	0.60	0.04		1.42

Notes:

- (1) The City is autonomous from any other political subdivision of the Commonwealth of Virginia, and there are no overlapping taxing powers with other political subdivisions.
- (2) Direct rates are derived by calculating a weighted average that multiplies each rate by the proportion of the revenue base to which it applies.

**INDEPENDENT AUDITOR’S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the Honorable Members of City Council
City of Winchester, Virginia

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *Specifications for Audits of Counties, Cities, and Towns* issued by the Auditor of Public Accounts of the Commonwealth of Virginia, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Winchester, Virginia (the “City”), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the City’s basic financial statements, and have issued our report thereon dated January 18, 2021.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City’s internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City’s internal control. Accordingly, we do not express an opinion on the effectiveness of the City’s internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. **Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.**

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. **The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.**

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM
AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY
THE UNIFORM GUIDANCE**

To the Honorable Members of City Council
City of Winchester, Virginia

Report on Compliance for Each Major Federal Program

We have audited the City of Winchester, Virginia's (the "City") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the City's major federal programs for the year ended June 30, 2020. The City's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the City's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City's compliance.

Opinion on Each Major Federal Program

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

Report on Internal Control Over Compliance

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. **We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.**

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Notes to the Schedule of Expenditures of Federal Awards

Note 1: Basis of Presentation

The Schedule of Expenditures of Federal Awards is presented on the modified accrual basis of accounting as contemplated by generally accepted accounting principles.

Note 2: Non-Cash Assistance

The City of Winchester participated in the National School Lunch Program, CFDA Number 10.555, which provides non-cash benefits. The Schedule of Expenditures of Federal Awards includes commodity distributions of \$183,443 from the National School Lunch Program.

Note 3: Loan Program

Included in the current year Schedule of Expenditures of Federal Awards was \$855,184 in loan proceeds expended in the year under the Section 108 loan guarantee program from the Department of Housing and Urban Development, CFDA #14.248. The outstanding balance of this loan was \$600,000 at June 30, 2020.

Note 4: De Minimus Indirect Cost Rate

The City did not elect to use the 10% de minimus indirect cost rate.
